PRODUCT ENGINEERING

McGRAW-HILL WEEKLY FOR DESIGN ENGINEERS

1961 INDEX

Part 1 — Volume 32

WEEKLY EDITIONS • JANUARY 2 THROUGH JUNE 26

Subject index • page 2
Author index • page 15
Company names and organizations • page 10

Index includes editorial content of each weekly issue:

Feature articles and special reports, staff and contributed,

Developments to Watch, Editorials, Product Designs,

Significant Parts, Trends in Appearance Design,

Design File and featured items in

Engineering Week, Points of View, and Abstracts.

Copyright 1961 by McGraw-Hill Publishing Co., Inc., 330 West 42nd Street, New York 36, N. Y.

A

Actuators
- Air operates rotary actuator (SP) — Feb. 20 — 90
- Push-pull linear actuator (SP) — June 12 — 80
- Switch actuators (SP) — June 12 — 80

Adhesives
- Aluminum treatment to improve adhesive bonds (D) — Feb. 27 — 9
- Ceramic cement for 4000 F-plus F.R.Park — May 29 — 19
- Chemicals to promote adhesion (D) — Feb. 20 — 8
- Contaminants are clue to polyethylene adhesion (N) — Mar. 27 — 6
- Design Engineering Conference discussions (N) — June 12 — 18
- Epoxy-nylon resins show promise for metal-to-metal bonding (D) — Feb. 13 — 9
- High-strength film adhesive (SP) — June 26 — 64
- Hi-temp adhesives (SP) — May 22 — 61
- Metal-to-metal adhesive (SP) — Mar. 27 — 64
- Multiple adhesives multiply strength of joints (D) — May 8 — 8
- Pre-shaped epoxy adhesives. Vincent Sussman — May 22 — 43
- Silver conductive adhesives (SP) — Feb. 13 — 61
- Three adhesives (SP) — May 15 — 160

Administration see **Engineering Administration**

Aeronautics
- Army taps two manufacturers for helicopter designs (W) — June 5 — 12
- B-70 cutback program reported (W) — Mar. 20 — 12
- British report success with single-engine orthodox airframe VTOL (RA) — Jan. 2 — 10
- British turboprop shows corrosion cracks in wing spars (N) — Jan. 23 — 16
- Damping aircraft vibrations (A) — Feb. 27 — 76
- FAA chief stresses need for 2000-mph jet airliner by '68. Herbert Cheshire (N) — Jan. 23 — 17
- Gatling-gun principle adopted for hypersonic shock tunnel rotor (N) — Apr. 10 — 15
- Helical-filament winder spins out a fuel tank (N) — Feb. 6 — 20
- Helicopter – the "Seasprite" (T) — Jan. 16 — 24
- Helicopter powered by turbo for more jobs – Navy's HU2K-1 (PD) — Jan. 16 — 44
- Missile planners charged with neglecting commercial aviation's R&D needs. Seth Payne (N) — Jan. 30 — 17
- Navy studying aircraft launchers (W) — May 29 — 10
- Navy's lighter-than-air program is abandoned (W) — Mar. 27 — 12
- SOR-182 – half of Lockheed's $1-billion government job to be subcontracted (W) — Mar. 27 — 12
- Stereoscan – 3-D monitor for aircraft. William Wallace (N) — May 15 — 20
- Supersonic passenger liner would be economical (N) — Jan. 2 — 11
- T-188 world's fastest atmosphere-aircraft (N) — Mar. 20 — 17
- Transport structure to use stainless and titanium alloys (W) — Apr. 24 — 12
- Tri-jet airliner designed for short range(N) — Jan. 9 — 20
- What technological problems need solutions in the aircraft industry? (PV) — Mar. 27 — 24
- Wings of cloth on test vehicle (N) — June 19 — 24

Aluminum
- Aluminum wheel outbrakes its steel disk counterpart (N) — May 8 — 16
- Costs cut on superalloy (D) — May 8 — 10
- Drafting standards for aluminum (A) — June 26 — 80
- Echo II, aluminum foil balloon, will evaluate communications (N) — June 26 — 20
- Epoxy-finished aluminum sheet (SP) — June 26 — 64
- Fatigue effects of aluminum coatings compared (N) — Apr. 10 — 6
- Gas in aluminum (A) — Feb. 20 — 109
- Missile launchers go on aluminum diet (W) — Mar. 13 — 12
- Oceanographic research vessel proposed(W) — Feb. 27 — 12
- Pulley stock (SP) — Apr. 3 — 63
- "Safer" in liquid fluorine (N) — Apr. 24 — 6
- Sandwich panels (SP) — Jan. 9 — 78
- Snap-together extrusions form flat panel(N) — May 1 — 21
- Superpure aluminum readies for structural jobs (D) — Jan. 23 — 6

Amplifiers
- Torque amplifier (N) — Apr. 17 — 16

Appearance Design see **Industrial Design**

Appliances
- Floor cleaner (T) — Jan. 16 — 24
- French designers trying for a "national look" A.L. Erikson (T) — Apr. 17 — 25
- National Housewares Show. Peter Quay Yang (T) — Feb. 20 — 24
- Scrubber-cleaner motor stays high and dry (PD) — Jan. 23 — 51
- Space heater – magnetic drive eliminates seal and leaks (PD) — May 1 — 55
- Thermoelectric water cooler (N) — Apr. 17 — 17
- UK refrigerator-makers cold to competition (N) — Apr. 3 — 21
- Washer-dryer transmissions - three ways to multiple speeds (PD) — Feb. 6 — 50

Applied Mechanics
- Acceleration of low-complexity mechanisms J. Hirschhorn — May 8 — 26
- Designing shells for external pressure. F. Caplan (DF) — May 22 — 55
- 18 constant-strength beams nomograph. William Griffel (DF) — May 8 — 47
- High-damping materials - selection guide - report. Ungar & Hatch — Apr. 17 — 44
- How to analyze deflection of sleeved shafts. T.V. Duggan — Apr. 17 — 60
- Keeping the component warm. Ralph Crump — Mar. 13 — 61
- Liquid volume in ellipsoidal tanks. Cdr. S. R. Heller Jr. (DF) — Mar. 27 — 62
- Maximum stress in cylindrical short blocks. S. Warren Kaye (DF) — Jan. 23 — 63
- Mechanisms
  - Spring mechanisms. Kurt Hain 1. Force analysis Jan. 2-26 2. Point balance Jan. 9-62 3. Continuous balancing Jan. 16-46.
  - Power cylinder mechanisms. Kurt Hain 4. Full stroke Jan. 23-48 5. Intermediate positions Jan. 30-36.
- Natural frequency of nonlinear vibration isolators. G. Harold Klein — Feb. 6 — 54
- New constant-force spring systems. Ungar & Pearsons — Mar. 27 — 54
- New equations simplify pin measurement of gears. J. H. Glover — Mar. 13 — 80
- 9 common functions of thickness. S. Warren Kaye (DF) — Feb. 27 — 57
- Proper preload for cam-follower springs. F.H. Fowler Jr. (DF) — Jan. 9 — 76
- Stress when curved surfaces touch. R.I. Isakower (DF) — June 19 — 65
- Synchronic index of gear trains. E.D. Knab — May 29 — 35
- To move air – equations find the right impeller. J.M. Watson — Jan. 9 — 53
- What size drive rod between vibrator and test piece? Domenic Cerasuolo (DF) — Mar. 13 — 82
- When linkages need harmonic analysis. Freudenstein & Mohan. — Mar. 6 — 47
- Yo-yo despinner – mechanism stops spin of rotating masses. Creech & Fergin — Apr. 3 — 56

Assembly
- How to set tolerances for selective assembly. W. Hanka — May 1 — 58
- 6 applications for flat washers. N. Dale long. (DF) — Feb. 6 — 61

Automotive
- ACV – ground-effect machine (N) — Mar. 13 — 21
- Amphibious trucks run gamut of design ideas. Felix Giordano (N) — June 26 — 15
- British Cooper racing car (PD) — June 19 — 62
- Car interiors must be designed safer now. Kelleher & Leerburger Jr. — Feb. 13 — 24
- Citroen lifts wraps on its "spacious small car" (N) — Apr. 10 — 20
- Congress hears debate on safety (N) — Apr. 24 — 17
- Criteria for ideal auto plastic (N) — May 29 — 20
- Custom-built car starts with 1020-hp engine (N) — Feb. 27 — 17
- Delta-shaped automobile (T) — Apr. 3 — 25
- Design Engineering Conference discussions (N) — June 12 — 17
- Detroit compacts – but Volkswagen enlarges James Morrison (N) — Mar. 20 — 15
- Detroit compacts budding for next year's blooming. Don MacDonald (N) — Apr. 3 — 17
- Duplex nickel plating emerges a winner in car-corrosion survey (N) — Jan. 30 — 17
- The Edsel (A) — Jan. 9 — 91
- Electric auto sparks a growing interest by utilities (N) — Apr. 24 — 16
- Engineers look mainly to materials for better designs. Felix Giordano — Feb. 6 — 17
- Farina X (PD) — Jan. 9 — 58
- Ghia Selene II (PD) — Jan. 9 — 59
- Highways – tomorrow's highway – automatic and up to 150 mph (N) — Jan. 30 — 18
- Indianapolis 61: racing cars – anything new? (PD) — June 19 — 62
- Insurance company unveils safer version of safety car (N) — Apr. 24 — 17
- International Auto Show – engineer and designer look at the show. Goertz & Kelleher (T) — Apr. 24 — 24
- Jaguar's XK-E: solid, lightweight, easily assembled (PD) — Apr. 24 — 65
- Japan selling compact with 84.6-in. wheelbase (N) — Mar. 27 — 21
- Lancia Flavia (PD) — Jan. 9 — 59
- "Mailsters" for city mail delivery in Kent, Ohio (W) — Mar. 27 — 12
- Radio commercials sell auto materials - but not to designers. Don MacDonald (N) — June 5 — 16
- Refrigeration unit for trucks uses sprayed nitrogen (N) — Apr. 24 — 20
- Should safety be legislated into auto design? (PV) — Feb. 13 — 20
- Soviet compact has 'imported' flavor (PD) — Mar. 27 — 49
- Taxi to be British diesel inside Russian body (N) — Feb. 13 — 17
- Three-wheel delivery truck (N) — Apr. 17 — 20
- Turin Auto Show – Italian designers continue to buck tradition (PD) — Jan. 9 — 58
- US Army truck – static-frequency-changer key to high-power wheel motor. Del Yannatta (N) — Apr. 17 — 15
- USDA tries new route to truck refrigeration (D) — Jan. 23 — 5

B

Batteries
- Battery systems (A) — Mar. 27 — 85
- Battery technology (A) — Apr. 3 — 75

Bearings
- Air bearing concept is said to widen potential applications (N) — June 5 — 16
- Air-lubricated bearings heading for war and space applications. Felix Giordano (N). — May 1 — 20
- Analyzer writes bearing record. Felix Giordano (N) — Mar. 6 — 15
- Ball bearings in liquid nitrogen (A) — Jan. 23 — 78
- Better gas bearings with standard components (D) — Apr. 17 — 9
- Cantilever thrust bearing (SP) — Feb. 27 — 62
- Dry-lube bearings fail wet-lube tests (N) — May 15 — 6
- Efficiency of antifriction bearings (A) — Jan. 2 — 59
- Electronic instrument gives continuous record of bearing performance (D) — Feb. 27 — 9
- Fabricating frictionless bearings (A) — Mar. 13 — 105
- Fatigue failures of bearings (A) — Jan. 16 — 75
- Fire lubricates these bearings (D) — June 5 — 8
- Fluoroplastic bearings shine in no-lube tests (N) — Apr. 24 — 6
- French try out dual dry-lube system (D) — Apr. 3 — 8
- Gas bearing for thrust applications (A) — Jan. 2 — 61
- Hardened-steel bearings prove out at 800 F (N) — May 29 — 5
- Hybrid gas bearings for better stability. P.H. Stahlhuth — Apr. 10 — 56
- Journal bearing (SP) — Apr. 10 — 67
- Journal-bearing analysis (A) — June 12 — 95
- Journal bearing design. B.M. Dunham — Jan. 30 — 36
- Magnetic journal bearing (A) — June 19 — 95
- Materials head for high temperatures (D) — Apr. 24 — 9
- Moldable, self-lube compositions (D) — Mar. 13 — 8
- New developments in bearing and gear lubrication. N.P. Chironis — May 15 — 98
- Packaged pump bearings assemble faster(PD) — Feb. 27 — 47
- Reinforced TFE + moly disulfide – for dry bearing surfaces. R.C. Barry — Mar. 20 — 76
- Sintered-bronze bearings to offer lower friction coefficients (D) — Mar. 6 — 8
- Teflon bearings (A) — June 26 — 80
- Thickness of babbitt lining (A) — Jan. 9 — 91
- Your guide to roller and thrust bearings. N.P. Chironis — Jan. 16 — 33

Belt Drives and Conveyors
- Wire woven-mesh belts (N) — June 19 — 24

Bonding
- Aluminum treatment to improve adhesive bonds (D) — Feb. 27 — 9
- Diffusion-bonded coatings are key to new joining process (D) — Jan. 30 — 8
- Epoxy-nylon resins show promise for metal-to-metal bonding (D) — Feb. 13 — 9
- Multimetal parts stamped from clad metal strip. Brian Coad — Jan. 9 — 69
- Self-bonding increases carbide strength (D) — Apr. 10 — 8

Book Reviews
- Adaptive control systems. Mishkin & Braun Jr. — May 1 — 76
- Analog computer components. R.M. Howe — May 15 — 235
- Analogue computation. Stanley Fifer — Mar. 20 — 101
- Analysis and design of mechanisms. Deane Lent — Apr. 24 — 100
- The arc discharge. H de B. Knight — Mar. 20 — 101
- The autobiography of science ed Moulton & Schifferes — Jan. 16 — 70
- Basics of analog computers. Truit & Rogers — Mar. 6 — 74
- Calculus - refresher for technical men. A.A. Klaf — Feb. 13 — 72
- Centrifugal pumps. Karassik & Carter — Apr. 17 — 92
- Cermets. Tinklepaugh & Crandall — Mar. 13 — 101
- Complex variables and the laplace transform for engineers. W.R. Lepage — May 22 — 72
- Computer logic. Ivan Flores — Jan. 16 — 70
- The crisis we face: automation and the cold war. Steele & Kircher — Jan. 2 — 57
- Data services for the defense industry — May 22 — 72
- Design of worm and spiral gears. Buckingham & Ryffel — Mar. 13 — 101
- Development of beryllium castings. Crossley, Metcalfe & Graft — Feb. 6 — 79
- Differential effects of speed and load stress on task performance. Gabriel Jeantheau — Jan. 2 — 59
- Digital applications of magnetic devices. ed A. J. Meyerhoff — Jan. 16 — 70
- Dynamics of rigid bodies. W.D. Macmillan — Feb. 13 — 72
- Early motor-cars. G.A. Oliver — Mar. 27 — 85
- Electric circuits and machines.E.C. Lister — Apr. 3 — 73
- Electrical noise. W.R. Bennett — Jan. 2 — 57
- Electrical principles of electronics. A.G. Gillie — May 29 — 71
- Electronic equipment reliability. Dummer & Griffin — Mar. 27 — 85
- Electronic maintainability Vol. 3 ed F.L. Ankenbradt — Jan. 9 — 89
- Electronics in engineering 2nd ed. W.R.Hill — June 12 — 95
- Elements of electronics. Hickey & Villines Jr. — Apr. 17 — 92
- Elements of maser theory. A.A. Vuylsteke — Jan. 2 — 59
- Elevated-temperature properties of aluminum and magnesium alloys. Voorhees & Freeman — Mar. 6 — 74
- Environmental effects on materials and equipment — May 22 — 72
- Essentials of dielectromagnetic engineering. H.M. Schlicke — May 15 — 237
- The explosive working of metals. John Pearson — Apr. 3 — 73
- The extrusion of metals 2nd ed. Pearson & Parkins — Mar. 20 — 101
- Fatigue properties of ultrahigh-strength steel. Nudelman & Sheehan — June 5 — 79
- Formulas for stress and strain. R.J. Roark — Mar. 13 — 102
- Handbook of consulting practice for mechanical engineers. ASME — May 8 — 55
- Heat conduction in distributed system. Norton & Zirkle — Mar. 27 — 85
- High-strength steel: effect of varying composition. S.V. Arnold — June 5 — 79
- High-temperature insulation for wire. Harris & Walton Jr. — May 15 — 237

Ideas, inertia and achievement. F.B.Turck Feb. 20 106
Induction heating: coil and system design. P.G. Simpson Feb. 20 106
Instrumentation and high-speed photography Mar. 6 74
Intelligent man's guide to science. Isaac Asimov May 29 71
Introduction to the kinematic geometry of gear teeth. A.H. Candee June 12 95
Kinematics and linkage design. A.S.Hall Jr. Apr. 10 79
Large-diameter anti-friction bearings. H.W. Anderson & others Apr. 3 73
Linear programing and the theory of the firm ed Boulding & Spivey Jan. 23 78
Linear system analysis. P.E. Pfeiffer May 8 55
Machining characteristics of high-strength thermal-resistant materials Vol. 4 Feb. 27 74
Mathematical snapshots. H. Steinhaus Feb. 6 79
The measure of man. Henry Dreyfuss June 26 78
Metals Engineering Quarterly May 22 75
Metals handbook - 8th edition Vol. 1 Properties and selection of metals June 19 88
Microelectronics. Office of Naval Research May 15 237
Minerals economics. O.C. Herfindahl May 22 72
Modern materials: advances in development and applications. Vol. II ed H.H. Hausner May 15 235
Modern physics for the engineer. Ridenour & Nierenberg June 19 88
National watercraft collection. H.I. Chapelle June 12 95
The new world of math. G.A.W. Boehm Feb. 13 72
Nondestructive testing. W.J. McGonnagle June 26 78
Off-the road locomotion. M.G. Bekker Jan. 30 67
Polypropylene. O.J. Kresser Mar. 13 101
The role of viscosity in lubrication. O.C. Bridgeman May 1 76
Russian for scientists. Dennis Ward Apr. 17 92
Russian science in the 21st century ed Sergei Gouschev & Mikhail Vassiliev Jan. 9 89
Science in writing. J.R. Henn May 15 235
Science since Babylon. Derek de Solla Price Mar. 13 101
The scientist in American industry. Simon Marcson Feb. 27 74
Semiconductors and transistors. Alexander Schure June 5 79
Shock and structural response. M.V. Barton Apr. 24 100
Staff in organization. Dale & Urwick Apr. 10 79
Statics and strength of materials. Bassin & Brodsky Feb. 6 79
Steel castings handbook. Steel Founders' Society of America Feb. 13 72
Successful managerial control by ratio-analysis. S.A. Tucker Apr. 24 100
Symposium on hydraulic fluids. ASTM Jan. 2 57
Technical writing techniques for engineers. Joseph Racker Jan. 30 67
Thermionic energy converter. Dr. W.L. Knecht Feb. 20 108
Thermoelectricity. Davisson & Pastemak May 22 72
Theory of elastic stability. Timoshenko & Gere May 15 235
Tin and its alloys. Hedges, Cuthbertson et al Feb. 20 106
Transistors - principles, design and applications. W.W. Gartner Apr. 10 79
Trigonometry - refresher for technical men. A.A. Klaf Feb. 27 74
Ultrasonic welding. A.L. Phillips Feb. 20 106
The waste makers. Vance Packard Jan. 23 76
Welding metallurgy. A.L. Phillips Jan. 30 67

Brakes
Aluminum wheel outbrakes its steel disk counterpart (N) May 8 16
Automatic transmission and brake for bicycles - Design Award May 22 39
Cooling hot brakes. T.G. Hicks (DF) Feb. 13 57
DC dynamic braking (A) June 19 91
Hydraulically operated brake for turboprop propellor (PD) June 19 61
Reusable molds make titanium practical (N) Mar. 20 20
Sonics in diecasting (A) Feb. 13 76
Spray-cast coating offers low-cost cylinder protection (D) June 26 8
Molded brake lining (A) Mar. 13 105
Small-size magnetic brakes (SP) Jan. 9 78
Speed response of dc clutches and brakes. Sal Iatesta Jan. 23 41

Brazing
Magnetic tests now handle nonmagnetic brazes (N) May 29 19
Multimetal parts stamped from clad metal strip. Brian Coad Jan. 9 69

C

Cams
1-way output from speed reducers. Louis Siegel (DF) Apr. 17 64
Proper preload for cam-follower springs. F.H. Fowler Jr. (DF) Jan. 9 76

Capacitors
Ceramics boost heat resistance of capacitors (D) May 22 9
Enameled capacitors get high reliability rating (D) June 12 9

Castings
Bigger, purer castings (D) Mar. 13 8
Bimetal shapes made by new process (D) May 1 9
Cheapest way to produce metal parts. Herbert Kee Mar. 27 60
How to solve intricate diecastings Jan. 2 36
Japanese chemical formula promises better vacuum casting. John Yamaguchi (N) Mar. 6 17
100% pure tungsten is melted and cast. Paul Hansen (N) Apr. 17 20
Plaster die gives accurate prototypes for diecastings. W.G. Newton Jr. Apr. 3 54
Plating aluminum diecastings (A) Feb. 27 76
Press-forging for higher-strength steel castings. Berry & Watmough June 12 68
Thermoforming + investment process = ultrathin-wall castings. A.E. Clarke Jr. Feb. 27 42
Zinc die-casting alloy (SP) Jan. 9 78

Ceramics
Ceramic-reinforced ceramics make new laminates (D) Feb. 20 9
Cement for 4000 F-plus. F.R. Park (N) May 29 19
Ceramics boost heat resistance of capacitors (D) May 22 9
Decals to mark instrument dials, glass cylinders (D) June 26 9
Dyna-Soar space vehicle's ceramic cap (N) May 8 18
High-energy-rate forming (N) May 29 5
Lithium aluminum silicate refractory for high-temperature uses (D) Apr. 17 9
Materials study gives nod to ceramics (W) Mar. 6 12
Metal-modified oxides promise high stability at high temperatures (D) Apr. 3 8
Metals and ceramics at Design Engineering Show. Ford Park (N) June 12 22
Moving furnace sinters long ceramics (D) June 12 8
Tantalum protected by ceramic and cermets (D) June 5 9
Thoria tackles refractory jobs (N) Apr. 3 6
When designing with ceramic materials. L.R. Larsen May 29 47

Chain Drives
Miniature chain for low-cost drives (D) Apr. 17 8

Clutches
Clutches for mechanical drives - report. John Proctor June 19 43
Dual clutches speed response of missile controls (PD) Mar. 6 53
Electric brake-clutch (SP) Jan. 16 59
Magnetic clutch (SP) May 22 61
1-way output from speed reducers. Louis Siegel (DF) Apr. 17 64
Photocell adjusts magnetic clutch (PD) Mar. 6 52
Speed response of dc clutches and brakes. Sal Iatesta Jan. 23 41
Two-speed operation provided by new cam clutch (D) Feb. 13 8

Computers
Air and oil invade computer field (PD) June 5 54
Analog-to-digital converters (SP) Jan. 16 59
Autoprompt computer program speedily gives complex shapes (N) June 26 17
British learning machine will simulate brain. Nick Landon (N) Mar. 20 20
Can a computer replace you? (Ed) Mar. 6 37
Can machines really learn? C.J. Lynch Apr. 3 39
Data processors ask ASA to write industry standards (N) June 19 16
Eastern Joint Computer Conference - improved computer designs shown. C.J. Lynch Jan. 9 16
Electronic accounting system (T) May 29 23
4 new random-access memories for digital work. D.C. Koehler May 1 51
French design computer for engineering (D) Jan. 30 9
Higher-speed for high-speed computers (N) June 12 6
Italy takes second look at computer market. G. DiRaimondo (N) Jan. 9 17
Japan's analog computer-controlled subway train (N) Jan. 2 13
Magnetic tapes developed in West Germany (D) May 22 9
Mesucora Show - European look captures French instrument show. Art Erikson (N) June 19 15
Printout system converts tape to micro-film at 20,000 characters per second (N) Feb. 20 21
Solid-state memory responds to a light beam. C.J. Lynch (N) Feb. 13 16
Strain-gage with built-in computer (SP) Apr. 24 85
Teaching machines see under **Instrumentation**

Control Systems
Automatic paver obeys electrical, hydraulic and pneumatic controls. D.R. Davin Jan. 23 44
Control-locks thwart vibration and shock. F.W. Wood Jr. (DF) June 26 61
Data processors ask ASA to write industry standards (N) June 19 16
Do-it-yourself conversion gives flow-rate control (D) Mar. 20 9
Dual clutches speed response of missile controls (PD) Mar. 6 53
Electropneumatic control features solid-state devices (D) May 22 8
Fast-response temperature controls. W. Bratkowski May 29 40
Fluid-power "building blocks" give flexibility to control systems (D) June 26 9
1-way output from speed reducers. Louis Siegel (DF) Apr. 17 64
Pushbutton selects exact speed quickly on drilling machine (PD) Apr. 10 52
Step switching controls high-speed machine (N) May 15 15
Three standardized control elements (SP) Feb. 13 61
Tool control thinks ahead (D) May 8 8
US seeks satellite orbit-control systems (W) Jan. 9 12
Which decision-making electrical control? E.L. Rudisill Feb. 13 37
Yo-yo despinner - mechanism stops spin of rotating masses. Creech & Fergin Apr. 3 56

Corrosion
British turboprop shows corrosion cracks in wing spars (N) Jan. 23 16
Corrosion design problems (A) May 22 75
Corrosion-resistant alloys (A) June 26 83
Duplex nickel plating emerges a winner in car-corrosion survey (N) Jan. 30 17
Stop galvanic corrosion. Federico Strasser (DF) Feb. 20 87
Threshold values for stress corrosion (A) Apr. 24 103
Underground cathodic protection (A) June 19 91

Counters
How to pick the right mechanical counter. L.D. Temple Apr. 17 41
Miniature impulse counter (SP) Feb. 27 62
Self-checking counter simplifies testing (N) Feb. 6 6

Couplings
Flexible coupling (SP) June 19 69
Quick-disconnect coupling (SP) Jan. 2 52
Self-aligning coupling (SP) Mar. 6 62
Two-way shutoff coupling (SP) May 15 160
Underwater couplings (SP) June 19 69

Cryogenics
Conventional seals do unconventional jobs (N) Feb. 13 6
Helium isotope for colder research (N) Mar. 6 6
Low-temperature hardness charted for hard materials (N) June 19 6

Cylinders
Adjustable-stroke cylinder (SP) Apr. 3 63
Air-hydraulic cylinder (SP) May 29 60
Designing shells for external pressure. F. Caplan (DF) May 22 55
Maximum stress in cylindrical short blocks. S. Warren Kaye (DF) Jan. 23 63
Mechanisms
Power cylinder mechanisms. Kurt Hain
4. Full stroke Jan. 23 48
5. Intermediate positions Jan. 30 36
Stroke is programmed (SP) June 26 64
Tandem valve-in-head cylinder (SP) Apr. 24 85

D

Design
Area heat sources answer to hot-spot temperatures. R.E. Crump Jan. 30 42
The attractive nuisances (Ed) Jan. 30 27
Auto engineers look mainly to materials for better designs. Felix Girodano (N) Feb. 6 17
Balance, precision - redesigning a half century of success (T) Mar. 20 24
Bearings - Your guide to roller and thrust bearings. N.P. Chironis Jan. 16 33
Beryllium - what it can do for you. P.E. Gage Feb. 20 82
Boat Show. John David Beinert (T) Feb. 6 21
British firms balk at NASA terms (N) May 29 16
Calculation forms speed design. Jacob Hermann May 29 54
Cellular rubber gives rigid lightweight parts. Gene Kask June 26 46
Ceramics - When designing with ceramic materials. L.R. Larsen May 29 47
Checklist for planetary-gear sets. H.P. Hubbard (DF) Apr. 3 60
Choosing the right soft solder alloy. H.H. Manko Mar. 6 39
Corrosion design problems (A) May 22 75
Cushioning materials (A) Apr. 17 93
Descaling tool, air-operated (D) Apr. 10 8
Design for faster spotwelding. Walter Blumenstein Apr. 24 76
Design ideas from Design Engineering Show. C.J. Lynch (N) June 12 24
Design is decisions and not intuition, says educator (N) Feb. 27 15
Design problems in microminiaturization (A) Feb. 6 81
Dimensions for hand grips. F.W. Wood Jr. (DF) Apr. 10 64
Double-passage rotating union (SP) Jan. 2 53
8 stops for panel doors. F.W. Wood Jr. (DF) May 1 63
Engineering in magnetohydrodynamics (A) Mar. 20 103
Feeder, constant-rate, gets new design (D) Feb. 6 9
Filament-winding machine (N) Apr. 3 20
Flange design - 7 versions. Federico Strasser (DF) Mar. 20 80
Flexible magnets - what you can do with them. Annesta R. Gardner Jan. 9 65
Flexible metal tapes for high-speed mechanisms. C.B. Hebeler Feb. 20 65
Ground rules for designing sheetmetal stampings. Federico Strasser (DF) Jan. 2 50
Hannover Fair. James Morrison (N) May 29 15
He who has ears (Ed) June 5 38
Heat sink obtained from dyna-damped panels (N) Apr. 10 21
Heater, direct-contact (SP) Apr. 24 85
High-damping materials - selection guide - report. Ungar & Hatch Apr. 17 44
The high-strength steels - what they offer. H.L. Kee Jan. 23 54
How do you integrate design and production? (PV) Jan. 30 20
How to design with precision ball screws. J.A. Hope Apr. 24 59
How to pick the right mechanical counter. L.D. Temple Apr. 17 41
How to solve intricate diecastings Jan. 2 36
How to stop a product from leaking. A.R. Gardner June 5 41
Hybrid gas bearings for better stability. P.H. Stahlhuth Apr. 10 56
IRE Show (N) Apr. 10 17
Is "caveat emptor" obsolete? (Ed) May 29 33
Is engineering the sole source for new-product ideas? (PV) May 1 24

(A)Abstract. (D)Developments. (DF)Design File. (Ed)Editorials. (N)Technical News. (PD)Product Design. (PV)Points of View. (SP)Significant Parts. (T)Trends in Appearance Design. (W)From Washington.

Journal bearings design. B.M. Dunham ... Jan. 30 36
Leipzig Fair stresses less bizarre design by Reds. Pete Forbath (N) ... Apr. 3 15
Mechanical components at Design Engineering Show (N) ... June 12 19
Mechanisms - nine lectures
Spring mechanisms. Kurt Hain
1. Force analysis ... Jan. 2 26
2. Point balance ... Jan. 9 62
3. Continuous balancing ... Jan. 16 46
Power cylinder mechanisms. Kurt Hain
4. Full stroke ... Jan. 23 48
5. Intermediate positions ... Jan. 30 36
Feeder mechanisms. Schaedler & Marx
6. Types ... Feb. 6 44
7. Applications ... Feb. 13 52
8. Angular motions ... Feb. 20 80
9. Curvilinear motions. Kurt Hain ... Feb. 27 54
Mesucora Show - European look captures French instrument show. Art Erikson (N) ... June 19 15
Metal-powder parts. Felix Giordano ... Mar. 13 78
Oven, constant-temperature (D) ... June 12 9
Oxygen supplier (PD) ... Apr. 3 51
Pivot, flexural (SP) ... Apr. 17 67
Plaster die gives accurate prototypes for diecastings. W.G. Newton Jr. ... Apr. 3 54
Polycarbonate parts - design them this way. C.V. Leunig ... May 1 46
Predict product performance. G.G. Quirk Jr. ... Apr. 24 68
"Product Engineering" presents Master Design Awards (N) ... June 12 18
Radio commercials sell auto materials - but not to designers. Don MacDonald (N) ... June 5 16
Railroads - Japan moving toward automation (N) ... Jan. 2 13
Recentering mechanism (SP) ... Jan. 23 66
Safe tolerance for cumulative dimensions. E.R. Wolff ... Jan. 2 40
SCR's vs thyratrons - more. Frank Yeaple ... Mar. 20 78
Seals - how to choose a dynamic seal. Peickii & Christensen ... Mar. 20 57
Seals - how to specify dynamic seals. R.J. Matt ... Mar. 20 70
Second Annual Master Design Awards ... May 22 35
Shock-absorbing systems - which will do the job? G. Reinert ... May 1 41
Simple optical systems. D.H. Cronquist ... Mar. 13 65
Snap-in access panels preserve clean look. F.W. Wood Jr. (DF) ... May 29 57
Soldered electrical connection design. H.H. Manko ... June 12 57
A Solomon for security? (Ed) ... Apr. 10 39
Speed response of dc clutches and brakes. Sal Iatesta ... Jan. 23 41
Stone upon stone (Ed) ... Apr. 17 39
Subway train, analog-computer-controlled (N) ... Jan. 2 13
10 guideposts to low-cost rubber parts. Yates & Bond ... Apr. 10 60
Tool Show - better-organized design helps European machines. Stahl & Kolb (T) ... June 12 26
Troubleshooter's approach to failure analysis. Dodge & Lull ... June 26 41
Universal standard for printed wiring boards. F.W. Wood Jr. ... Apr. 3 42
Value...the emerging emphasis in design - report. E. J. Tangerman ... May 15 79
Washer-dryer transmissions (PD) ... Feb. 6 50
Which controlled rectifier - SCR or thyratron? Baruch Berman ... Jan. 2 29
Which decision-making elec.rical control? E.L. Rudisill ... Feb. 13 37
Yo-yo despinner - mechanism stops spin of rotating masses. Creech & Fergin ... Apr. 3 56

Design Engineering Conference and Show
Competitive markets are conference theme (N) ... Apr. 17 16
Where to eat in Detroit ... May 15 107
ASME Conference Program ... May 15 114
Cobo Hall Floor plan ... May 15 118
Who's showing what -
by exhibitors ... May 15 118
by product ... May 15 140
New products on display ... May 15 160
New catalogs and bulletins ... May 15 199
The conference (N) ... June 12 17
The show (N) ... June 12 19

Drafting
Is your drafting room manual readable? Dr. S.W. Brossman ... June 5 57
Numerically controlled draftsman makes it bow (N) ... Jan. 30 15
Standards for aluminum (A) ... June 26 80

Drawing and Forming
Deep-drawn parts from H-11 steel (N) ... Jan. 16 21
Explosive forming causes only slight stresses. R.E. Abbott (N) ... June 26 17
High-energy-rate forming tested for ceramics (N) ... May 29 5
Molecular sieves now formed as cores (N) ... June 5 15
Precision needed? Don't overlook electroforming. W.H. Safranek ... June 5 44
Prontour process - inexpensive way to get intricate metal shapes (N) ... May 15 17
Thermoforming + investment process = ultrathin-wall castings. A.E. Clarke Jr ... Feb. 27 42
When designing with ceramic materials. L.R. Larsen ... May 29 47

E

Economics
Cheapest way to produce metal parts. Herbert Kee ... Mar. 27 60
Defense R & D to thrive under Kennedy budget (W) ... Apr. 10 12
Defense spending boost expected (W) ... Mar. 6 12
Federal R & D spending in fiscal '62 to pass $9.4 billion (W) ... Jan. 30 10
Federal spending for science to pass $8-billion mark (W) ... Jan. 16 12
French boost nonmilitary R & D spending by 20% (RA) ... Jan. 2 10
Germany hires jobless to care for jobless (N) ... Feb. 20 17
Industrial relocation studied by Commerce Dept. (W) ... Feb. 27 12
OEEC reorganization (N) ... Jan. 9 21
Pratt & Whitney sets up trade-in plan (N) ... Apr. 10 16
President seeks bigger budget for manned space flight (W) ... May 22 10
Red China industry nears technical independence from USSR (N) ... Feb. 20 15
Small business can expect more military contracts (W) ... Mar. 6 12
Spending for limited warfare to increase (W) ... Mar. 20 12
US trade boosted by Commerce Secretary Hodges at Hannover Fair. James Morrison (N) ... May 29 15
USSR urges trade on UK (N) ... Jan. 9 17

Editorials
The attractive nuisances ... Jan. 30 27
Automation is the smoke - where's the fire? ... Apr. 24 57
But is it progress? ... Jan. 23 38
Can a computer replace you? ... Mar. 6 37
The creative caterpillar ... Jan. 2 23
Double standard? ... Jan. 9 51
The foolish servant ... May 22 33
The greater responsibility ... Feb. 13 35
He who has ears ... June 5 38
Industrial baby-sitter? ... Mar. 13 59
Is "caveat emptor" obsolete? ... May 29 33
Is you- morality showing? ... Feb. 20 63
Leader, not dictator ... June 26 39
The management pendulum swings ... Feb. 6 39
The rut of complacency ... May 8 25
The Se.ven Swabians ... Feb. 27 35
A Solomon for security? ... Apr. 10 39
Stone upon stone ... Apr. 17 39
Those very LIBERAL arts ... May 1 39
3-D testing ... Mar. 20 55
Turn back the clock? ... Jan. 16 31
When does engineering start? ... June 19 41
Who makes YOUR decisions? ... Mar. 27 41
Who says engineers can't write? ... Apr. 3 37
You and tomorrow ... June 12 55

Education
AEC continues its internship program (W) ... Feb. 20 12
Design is decisions and not intuition, says educator (N) ... Feb. 27 15
Doctorates reach all-time peak (N) ... Jan. 16 17
Japanese universities get financial aid (N). ... Mar. 6 20
Keep math practical, European engineers say (N) ... Mar. 27 20
NSF backs adult science program (N) ... Apr. 10 20
Nigeria self-trains technicians it badly needs. Paul Conklin (N) ... Apr. 24 15
The rut of complacency (Ed) ... May 8 25
Summer courses for engineers (N) ... May 8 16
Those very LIBERAL arts (Ed) ... May 1 39
When should an engineer's technical education begin? (PV) ... Mar. 13 24

Electrical
Ac contact-resistance measurements simplified (D) ... Mar. 27 8
Anodizing process is key to higher-temp motors (D) ... May 8 10
Area heat sources answer to hot-spot temperatures. R.E. Crump ... Jan. 30 42
Arrestor, multiple-stroke (SP) ... May 29 60
British offer improved flexible conductors (D) ... Jan. 23 6
Buildings to be electrified by their own gas-fueled engines. Bruce Cross (N) ... June 26 17
Calibrator for control cells (N) ... May 29 5
Circuit-breaker, snap blade (SP) ... June 26 64
Communications systems now use infrared, ultraviolet (D) ... Jan. 16 6
Component reliability (A) ... Feb. 13 79
Conductive organics show unusual properties (N) ... Jan. 9 7
Conductive papers tested for cable wrapping (D) ... Apr. 3 8
Conductors for high-temperature service (N) ... Mar. 20 6
Conductors improved by hi-temp design (D) ... Mar. 13 8
Contact device uses hi-temp metals (N) ... Mar. 13 6
Contactors and starters (SP) ... June 19 69
Contactors mechanically held (SP) ... June 12 80
Contour cable (N) ... Apr. 10 16
Current-generating set (N) ... May 29 16
Do-it-yourself fuel cell demonstrator (N) ... Feb. 6 20
Electric auto sparks a growing interest by utilities (N) ... Apr. 24 16
Electrical breakdown in vacuum studied (N). ... Feb. 13 6
Electrical components at Design Engineering Show (N) ... June 12 21
Electrical contacts (A) ... May 8 55
Electrical-system transients (A) ... Jan. 30 67
Electrolytic analog for transformer research (N) ... June 26 6
Electropneumatic control features solid-state devices (D) ... May 22 8
Fail-safe trigger assembly (SP) ... June 5 65
Fast-response temperature controls. W. Bratkowski ... May 29 40
Future power sources: Navy likes thermoelectrics and fuel cells (D) ... Feb. 20 9
Gaseous maser offers new rival to radio waves (N) ... Feb. 13 18
GE energizes world's highest operating-voltage transmission system (N) ... Jan. 9 14
Heating-element alloys being developed in India (D) ... Mar. 13 9
High-temperature magnet wire coming (D) ... May 15 8
How practical is 400-cycle power - today? F.E. Hall ... Mar. 6 54
Improved thermistors may replace thermocouples (D) ... Jan. 30 8
Indicator-light capsules (SP) ... May 8 51
Indicator, low-voltage, features novel design (D) ... May 22 9
Insert makes electrical connection (SP) ... Mar. 13 85
Insulating resins for electrical components (D) ... Feb. 6 8
Isotopes measure cable concentricity (D) ... Mar. 27 9
Limit stop (SP) ... May 29 60
Mechanical feedback for electrohydraulics (A) ... May 15 240
Mechanical properties pinpointed by electrical changes (N) ... Apr. 3 6
More-flexible coatings for hi-temp conductors (N) ... Feb. 20 6
Navy to develop subs powered by fuel cells (W) ... Apr. 24 12
Neutrons to measure temperature? (N) ... June 5 6
New films to conduct electricity (N) ... Feb. 27 6
New materials for equipment (D) ... Apr. 24 8
Nonlinear resistors to provide extended service range (D) ... Jan. 16 8
Nylon's dielectric properties changes by temperature (N) ... Apr. 17 6
Oil-level detector (D) ... Jan. 2 9
Ontario Hydro's cable design - fatigue poses problems (D) ... Jan. 23 6
Paper-base phenolic rod (SP) ... June 5 65
Piezoelectric-improved materials (N) ... May 22 6
Porosity of electrodeposits (A) ... May 22 75
Power supply unit (N) ... Jan. 16 20
Pulse light source (SP) ... Mar. 13 85
Reliability of pilot lights (A) ... May 8 55
Rhenium goes commercial (D) ... Mar. 20 9
60-amp power plug (SP) ... June 5 65
Solenoid, subminiature (SP) ... Mar. 13 85
Solid-state devices promise broader operating range (D) ... Feb. 13 8
Solid-state memory responds to a light beam. C.J. Lynch (N) ... Feb. 13 16
Sparking tool designed for roughening surfaces (D) ... Feb. 6 8
Static inverter for high-power jobs (D) ... Feb. 20 8
Superconductive alloy promises wide electrical applications (N) ... June 26 20
"Swiss cheese" circuits (A) ... Feb. 20 108
Testing of plastics simplified (N) ... May 1 6
Thermocouples to monitor methane (D) ... Apr. 3 8
Thermoelectric analyzer measures motion (D) ... Jan. 30 8
Thermoelectric components (SP) ... Apr. 17 67
Thermoelectric cooling goes commercial (N) ... Mar. 13 21
Thermoelectric elements - new way to fabricate (D) ... Jan. 9 9
Thermoelectric water cooler (N) ... Apr. 17 17
Thermoelectrics, liquid: new route to energy conversion (D) ... Jan. 16 8
Thermoelectrics - three guideposts (N) ... Jan. 9 7
Tomorrow's highway - automatic and up to 150 mph (N) ... Jan. 30 18
Tomorrow's power sources - report. Roy Kamo ... June 26 51
Transistorized page reader for data processing (W) ... Feb. 13 12
Tunnel-diode applications (A) ... June 12 95
Which decision-making electrical control? E.L. Rudisill ... Feb. 13 37
Wire, high-strength goes commercial (D) ... Mar. 6 9
Wire alloys tested for resistors (N) ... June 19 6

Electronics
Accounting system (T) ... May 29 23
Core material shrinks electronic components (D) ... Feb. 20 9
Electron lens promises higher order of resolution (N) ... Feb. 27 6
Electrostatic angle measuring (A) ... May 1 76
Expendable systems make design headway (D) ... Mar. 20 9
French design voltage regulator (T) ... Apr. 17 25
Grinding monitor (D) ... May 29 9
High-speed electronic flash has no afterglow (N) ... Jan. 30 6
How to build safety into electronics equipment. F.W. Wood Jr. (DF) ... Jan. 16 55
Instrument gives continuous record of bearing performance (D) ... Feb. 27 9
Iron Curtain countries test new electronic systems (D) ... May 15 8
Microminiaturization faces heat barrier (D) ... Apr. 3 9
New materials for equipment (D) ... Apr. 24 8
Rhenium goes commercial (D) ... Mar. 20 9
Stereoscan - 3-D monitor for aircraft. William Wallace (N) ... May 15 20
Teaching-aids become more versatile, convertible (N) ... Jan. 16 15
What technological problems need solutions in the communications industry? (PV) ... Jan. 9 24

Electroplating
Need precision? Don't overlook electroforming. W.H. Safranek ... June 5 44

Engineering Administration
AAAS scientists ponder engineering shortage (N) ... Jan. 16 15
The acceleration of science - crisis in our technological civilization. D.J. de Solla Price ... Mar. 6 56
Better technical communications asked for (N) ... May 1 20
Birth of a project - how it starts and where the project engineer fits in. P.L.Garrett ... Apr. 3 52

Britain checks migration of scientists to America (N) ... June 19 24
Can a computer replace you ? (Ed) ... Mar. 6 37
Canada's engineering shortage diminishing (N) ... Jan. 16 17
The creative caterpillar (Ed) ... Jan. 2 23
Dummy engineer shows how companies handle recruiting (N) ... Mar. 13 20
Executive engineering shortage persists (N) Jan. 16 20
Filing - How to file it - efficiently. R.W. Carson ... June 12 74
The foolish servant (Ed) ... May 22 33
Foreign engineers don't argue patent rights Jan. 9 72
Free engineering advice (A) ... May 22 75
Germans industries neglect applied research (RA) ... Jan. 2 10
The greater responsibility (Ed) ... Feb. 13 35
High grades help fledgling engineers get jobs. Ted Schafers (N) ... May 22 20
How much research is needed for engineering in the sixties (PV) ... Feb. 27 24
How to listen...and remember. E. J. Tangerman
1. Three simple steps...and why to take them ... June 5 61
2. Ten ways to be a bad listener ... June 12 76
3. Note-taking...how and why ... June 19 64
How to start to write a report. J.P. Laird ... Jan. 23 46
IRE Show - job mart flourishes next door (N) Apr. 3 20
Improve writing and speaking ability? (A) ... Feb. 20 109
Interview with Henry Dreyfuss (PV) ... May 22 22
Is "caveat emptor" obsolete? (Ed) ... May 29 33
Is engineering the sole source for new-product ideas? (PV) ... May 1 24
Is your morality showing? (Ed) ... Feb. 20 63
Leader, not dictator (Ed) ... June 26 39
The management pendulum swings (Ed) ... Feb. 6 39
Merit-rating engineers (A) ... May 15 240
Must engineers also be idea salesmen? (PV) Apr. 10 24
NSPE finds engineers lack full professional status (N) ... Jan. 9 20
NSPE sees same goal for all engineers (N) ... Mar. 20 16
Nigeria self-trains technicians it badly needs. Paul Conklin (N) ... Apr. 24 15
Novel indexing device solve technical filing problems. R.E. Wendt Jr ... Jan. 16 48
Retired engineers to staff new lab (N) ... Apr. 10 21
The rut of complacency (Ed) ... May 8 25
Salaries - engineers' pay rises 5 times faster than cost of living (N) ... Feb. 27 20
Salaries - median pay for US scientist in '60 was $9000 (N) ... Jan. 16 21
Salaries - want more pay? study law (N) ... Jan. 2 13
The Seven Swabians (Ed) ... Feb. 27 35
Soldered electrical connection design. H.H. Manko ... June 12 57
Speeches - should you make that speech. P.R. Heinmiller ... May 29 52
Those very LIBERAL arts (Ed) ... May 1 39
Trade-secret disclosure cases (N) ... Mar. 27 15
Union of 17,000 engineers, ESA, calls it quits (N) ... Jan. 2 14
Value...the emerging emphasis in design - report. E. J. Tangerman ... May 15 79
What program does the EJC want for today's engineers? (PV) ... Jan. 2 16
When does engineering start? (Ed) ... June 19 41
When should an engineer's technical education begin? (PV) ... Mar. 13 24
Who makes YOUR decisions? (Ed) ... Mar. 27 41
Who says engineers can't write? (Ed) ... Apr. 3 37
You and tomorrow (Ed) ... June 12 55

Engines and Engine Control

Automatic steam propulsion plant to be developed (D) ... Apr. 10 9
Buildings to be electrified by their own gas-fueled engines. Bruce Cross (N) ... June 26 17
Custom-built car starts with 1020-hp engine (N) ... Feb. 27 17
Czech resistance-welding points to economy car engine. F.H. Baer (N) ... Mar. 27 20
Dutch diesel works on oil or gas (D) ... Feb. 6 9
Engines tailored for design needs (PD) ... May 8 30
"Hardness Relaxation" method of temperature measurement. Nick Landon (N) ... Apr. 17 20
Helicopter powered by turbo for more jobs - Navy's HU2K-1 (PD) ... Jan. 16 44
Maritime wants automated steam-turbine propulsion by '63 (W) ... Mar. 27 12
Midget turbojet packs power with one-piece cast rotor. Don MacDonald (N) ... May 15 16
Model of wobble-piston engine works fine, but...Fred Baer (N) ... Apr. 10 21
Rocket turns nuisance wave into increased thrust. Felix Giordano (N) ... June 5 20
Rover nuclear engine nears production phase (W) ... Feb. 20 12
Shift to 4-cycle engines for midget cars called karts (D) ... Mar. 6 8
Solar engines begin to look promising (D) ... June 19 9
Tomorrow's power sources - report. Roy Kamo ... June 26 51
Variable vanes spark new Chrysler turbine (N) ... Mar. 13 16

Extruding

Blow molding dominates nation's plastics show. Levin & Kolb (T) ... June 26 24
Snap-together extrusions form flat panel (N) May 1 21

F

Fans

Fan-coil unit, free-standing (T) ... Jan. 23 24
Multistage blower (SP) ... Mar. 20 82
Quieter fan for heaters, appliances (D) ... May 29 8
To move air - equations find the right impeller. J.M. Watson ... Jan. 9 53

Fastening

Attaching hubless gears to shafts. L. Kasper (DF) ... Jan. 30 51
Beryllium bolts vie for space jobs (N) ... Mar. 13 17
Don't overlook near-standard fasteners. C.A. Hansen ... Jan. 9 75
Flush-mounted fasteners (SP) ... June 12 80
How to design with precision ball screws. J.A. Hope ... Apr. 24 59
How to select threaded inserts. S.H. Davison ... May 22 46
Locknut, structural floating (SP) ... June 19 69
Miniature fastener (SP) ... May 15 160
Nut, high-strength swage (SP) ... Jan. 30 55
Nylon fastener designed in Britain (D) ... Apr. 10 9
Pushbutton fastener (SP) ... May 22 61
Retaining ring is assembled without spring action (D) ... Jan. 9 9
Screw, self-sealing captive (SP) ... May 1 66
Self-aligning locknut (SP) ... Jan. 16 59
6 applications for flat washers. N. Dale Long (DF) ... Feb. 6 61
Snap-in ferrule on tube fitting (SP) ... Feb. 13 61
Socket jam screws (SP) ... Mar. 13 85

Fibers

Instrument aligns fibers electrostatically (D) Apr. 3 9
Nylon and viscose tires pass gruelling 15,000-mi test (N) ... Apr. 3 21
Super-refractory fibers readied for laminates and molded parts (D) ... Mar. 27 9

Filters

Adjustable filter selects particle size (D) ... May 1 8
Compressed-air filter and lubricator (SP) ... Mar. 20 82
Filter-regulator (SP) ... June 26 64
Navy standardizing fuel-filtration tests (D) ... Mar. 27 8
Submersible filter (SP) ... May 8 51
Vapor-contaminant filter (SP) ... Mar. 27 64

Finishes, chemical

Anodic coating for metals (D) ... May 29 8
Black adhesive coating (SP) ... Mar. 27 64
Ceramic coatings control heat dissipation (N) ... May 22 6
Coatings based on dialdehyde starch are transparent, boilable, solvent-resistant (D) ... Mar. 13 9
Coatings protect graphite at ultrahigh temperature (N) ... Apr. 17 6
Colloid upgrades thermal, mechanical properties (N) ... May 22 21
Colloidal alumina under test for finishes (D) Apr. 17 8
Columbium gets high-temperature protection (D) ... Mar. 20 9
Compounds will boost flame resistance (D) ... Mar. 13 9
Conversion coatings coming for zinc (D) ... Apr. 10 8
Diffusion-bonded coatings are key to new joining process (D) ... Jan. 30 8
Ductile palladium coating promised by new technique (D) ... Apr. 10 9
Fatigue effects of aluminum coatings compared (N) ... Apr. 10 6
German chemical process imparts durability to steel items. Felix Girodano (N) ... May 1 21
Improved metal coats on the way (D) ... Mar. 6 9
"Interlined" coatings tested for high-temperature protection (D) ... Apr. 10 9
More-flexible coatings for hi-temp conductors (N) ... Feb. 20 6
Strippable coatings (N) ... Mar. 13 6
Water-miscible alkyds finishes (D) ... Mar. 20 8
Zinc-columbium coatings do well at 1200 to 1800 F (N) ... May 15 6

Finishes, Paint

Anti-rust paints being developed in Italy (D) May 1 9
Paint dissipates the rust (D) ... Apr. 17 8
Satellite paint cuts interior temperatures during orbit. R.J. Ward (N) ... Feb. 6 15

Finishes, Plastic

Coatings to protect printed circuits (D) ... Feb. 20 8
Epoxy-finished aluminum sheet (SP) ... June 26 64
Finishes on laminate systems (A) ... Mar. 13 105
Spray-cast coating offers low-cost cylinder protection (D) ... June 26 8
Sprayed urethane coatings broaden rubber applications (D) ... June 5 8
Strippable coatings (N) ... Mar. 13 6

Finishing

Catalyst-type spray head (SP) ... Feb. 20 90
Chromallizing protects missile probes from high-temperature damage (N) ... Feb. 20 17
New films to conduct electricity (N) ... Feb. 27 6
New instrument, DORI, grades polished metal surfaces. Tingle & Potter ... Mar. 27 52
Radiation aids coating of plastics (D) ... Apr. 24 9
Simplified plasma torch (D) ... Mar. 13 9
Spray-cast coating offers low-cost cylinder protection (D) ... June 26 8
Surfacing process from Soviets (D) ... Mar. 20 6

Fluid Mechanics

Fluid-control device (SP) ... Jan. 2 52
Fluid power components at Design Engineering Show. W.B. Wallace (N) ... June 12 22
Leaktight seals for high-pressure valves and piping. R.W. Engle ... Apr. 24 72
Low-temperature pumpability of experimental lubricating fluids (A) ... June 26 80
Oil-hydraulic accumulator (SP) ... Jan. 23 66
Segmented shaft lines aid potash mining ... Apr. 17 17
Valves for nonlinear flow. Gerald Bloom ... Feb. 27 48
Viscosity (A) ... May 8 57

Fluids

Fire-resistance hydraulic fluids (A) ... Mar. 27 86
Liquid volume in ellipsoidal tanks. Cdr. S.R. Heller Jr. (DF) ... Mar. 27 62
Two-line hydraulic diagrams (A) ... Jan. 16 73

Forging

Cheapest way to produce metal parts. Herbert Kee ... Mar. 27 60
Press-forging for higher strength steel castings. Berry & Watmough ... June 12 68

Friction and Wear

Boundary to mixed friction (A) ... May 1 76
Fabricating frictionless bearings (A) ... Mar. 13 105
Gear-tooth friction (A) ... Jan. 16 73
Molded brake lining (A) ... Mar. 13 105
Sliding friction data (D) ... Apr. 24 9
Soviets design friction tester for plastics (N) Feb. 20 6
Structural materials rated for erosion resistance (N) ... Mar. 27 6
Which instrument-gear materials wear least? R.J. Benson ... Feb. 27 37

Fuel

API first reports on fuel oil studies (N) ... May 22 6
Do-it-yourself fuel cell demonstrator (N) ... Feb. 6 20
Liquid lithium may drive subs (D) ... Feb. 27 8
Navy standardizing fuel-filtration tests (D) Mar. 27 8

G

Gaskets

Navy replacing nitrile rubber-cork gaskets (D) ... Jan. 30 8

Gears

AGMA sets new gear standards (N) ... May 22 21
Attaching hubless gears to shafts L. Kasper (DF) ... Jan. 30 51
Checklist for planetary-gear sets. H.P. Hubbard (DF) ... Apr. 3 60
Double correction produces better gears (PD) ... Jan. 23 52
Hobbing vs gear design (A) ... June 26 80
Indexing-type drive, Geneva principle (SP) May 29 60
New developments in bearing and gear lubrication. N.P. Chironis ... May 15 98
New equations simplify pin measurement of gears. J.H. Glover ... Mar. 13 80
1-way output from speed reducers. Louis Slegel (DF) ... Apr. 17 64
Printing presses - gear mounted on shaft hydraulically (PD) ... Mar. 6 51
Synchronic index of gear trains. E.D. Knab May 29 35
Which instrument-gear materials wear least? R.J. Benson ... Feb. 27 37
Worm-gear speed reducers (SP) ... Jan. 16 59

Generators

MHD generator passes high-power test (N) Mar. 27 21
Magneto-thermionic power (A) ... Jan. 30 67
Plasma-heat-generators that are held by hand (T) ... Mar. 6 24
Precise-frequency power generation (A) ... Feb. 6 81

Glass

Fiberglass-reinforced thermoplastics - a closer look. W.H. Chadbourne ... May 15 95
Glass microballoons improve molded plastics (D) ... Mar. 20 8
Parallel glass fibers increase strength of rocket chambers (W) ... Apr. 17 12
Reinforced TFE + moly disulfide - for dry bearing surfaces. R.C. Barry ... Mar. 20 76
Sintering in glass bath: cheaper route to powder-metal parts? (D) ... Jan. 9 8
Soviets using glass film to reinforce plastics (D) ... May 1 9
Spiralloy case for third-stage Minuteman rocket (N) ... Mar. 20 16
Vinyl-coated glass fiber sheathing for electrical insulation (D) ... Apr. 17 9

Government

Administration's approach to space and research programs (W) ... Jan. 16 12
Armed Forces wants 123 new inventions (W) Mar. 6 12
Commerce Dept. wants its own technical chief (N) ... Mar. 6 20
Congress hears debate on motor vehicle safety (N) ... Apr. 24 17
Congress prepares investigation of "non-profit" firms (W) ... May 1 12
Court rules against FTC experts in water conditioner case (N) ... Apr. 10 15
Defense R & D to thrive under Kennedy budget (W) ... Apr. 10 12
Defense spending boost expected (W) ... Mar. 6 12
Government enlarging staffs to administer research (W) ... June 19 12
Kennedy Administration wants more togetherness in federal R & D (W) ... Jan. 16 12
Military technical reports - increased number to be published (W) ... June 5 12
Missile makers must economize or lose contracts (W) ... Feb. 13 12
Oceanographic research proposed (W) ... Feb. 27 12
Patent policy called sound by independent study (N) ... Mar. 13 15
Post Office may cut R&E spending for equipment (W) ... Feb. 27 12
A Solomon for security? (Ed) ... Apr. 10 39
Space program slated for overhauling (W) ... Jan. 9 12
Space programs stir controversy anew (W) ... Feb. 6 12
Spending for limited warfare to increase (W) Mar. 20 12

Graphical Techniques
Fast-response temperature controls. W. Bratkowski — May 29 — 40
Flexible metal tapes for high-speed mechanisms. C.B. Hebeler — Feb. 20 — 65
High-damping materials - selection guide - report. Ungar & Hatch — Apr. 17 — 44
How linear are flow-control valves. Louis Dodge — Feb. 6 — 47
How to set tolerances for selective assembly. W. Hanka — May 1 — 58
Hybrid gas bearings for better stability. P.H. Stahlhuth — Apr. 10 — 56
Keeping the component warm. Ralph Crump — Mar. 13 — 61
Natural frequency of nonlinear vibration isolators G. Harold Klein — Feb. 6 — 54
New constant-force spring systems Ungar & Pearsons — Mar. 27 — 54
Proper preload for cam-follower springs F. H. Fowler Jr. (DF) — Jan. 9 — 76
Quicker diagrams analyze steel fatigue M. D. Creech — Feb. 13 — 54
Resonance-free data from your transducer R. E. Storey — Feb. 20 — 72
Safe tolerance for cumulative dimensions E. R. Wolff — Jan. 2 — 40
Stress when curved surfaces touch R. I. Isakower (DF) — June 19 — 65

H

Hardening
Best heat treatment for PH stainless steel D. C. Ludwigson — May 8 — 32

Heat Transfer
Area heat sources answer to hot-spot temperatures R. E. Crump — Jan. 30 — 42
Heat-conductivity measurement made easy (N) — Jan. 9 — 7
Heating-element alloys being developed in India (D) — Mar. 13 — 9
Keeping the component warm Ralph Crump — Mar. 13 — 61
Microminiaturization faces heat barrier (D) — Apr. 3 — 9
Space heater – magnetic drive eliminates seal and leaks (PD) — May 1 — 55
These ways measure radiant heat (N) — Feb. 20 — 6

Human Engineering
Dimensions for hand grips F. W. Wood Jr. (DF) — Apr. 10 — 64
Effects of heat on man (A) — Feb. 27 — 76
Human response to aural and visual signals (A) — Feb. 20 — 109
Industrial baby-sitter? (Ed) — Mar. 13 — 59
Man in cold places (A) — Mar. 20 — 103

I

Illumination
Electroluminescent sources (D) — June 19 — 9
Fluorescent lampholders (SP) — May 29 — 60
High-power lamps head for commercial use (D) — June 5 — 9
How to design simple optical systems D. H. Cronquist — Mar. 13 — 65

Industrial Design
Appearance is secondary, designer tells Paris seminar Art Erikson (N) — May 8 — 18
Drill, electric – Design Award — May 22 — 41
Film vendor has push-pull access for servicing (PD) — Feb. 13 — 50
French designers trying for a "national look" A. L. Erikson (T) — Apr. 17 — 24
Hannover Fair James Morrison (N) — May 29 — 15
International Auto Show – engineer and designer look at the show Goertz & Kelleher (T) — Apr. 24 — 24
Interview with Henry Dreyfuss (PV) — May 22 — 22
Mesucora Show – European look captures French instrument show Art Erikson (N) — June 19 — 15
National Housewares Show Peter Quay Yang (T) — Feb. 20 — 24
Paper-feed mechanisms – eight Wood Jr. & Huffines (DF) — Mar. 6 — 60
Printing – electrostatic map printing system (D) — May 29 — 9
Printing presses – gear mounted on shaft hydraulically (PD) — Mar. 6 — 51
Prints mailing labels at computer speed (PD) — Feb. 20 — 76
Saw, reciprocating (T) — Jan. 23 — 25
Scale, pivotless, is friction-free (PD) — June 26 — 50
Screwdriver, power-driven (N) — May 29 — 16
Space heaters, French (T) — Apr. 17 — 25
Stereo and high-fi control panel (T) — Jan. 23 — 25
Thermoelectric cooling goes commercial (N) — Mar. 13 — 21
Typewriter, compact electric – Design Award — May 22 — 31

Instrumentation
Annunciator switches tilt to sound the alarm (PD) — Jan. 2 — 35
Automated transcriber reads printed numbers (PD) — Feb. 13 — 49
Automation is the smoke – where's the fire? (Ed) — Apr. 24 — 57
But is it progress? (Ed) — Jan. 23 — 38
Can machines really learn? C. J. Lynch — Apr. 3 — 39
Chicago's automated mail challenges ingenuity of design engineers Bruce Cross (N) — Apr. 3 — 21
Digital readout – shutter action translates binary code directly (PD) — May 1 — 56
DORI – new instrument grades polished metal surfaces Tingle & Potter — Mar. 27 — 52
Eccentricity-gaging system gives remote measurement of tube thickness (D) — Feb. 13 — 9
"Electrobalance" – samples weighed electrically, without friction (PD) — Apr. 3 — 50
Electromer for determining pH solutions (T) — May 15 — 25
Electronic instrument gives continuous record of bearing performance (D) — Feb. 27 — 9
Fibers aligned electrostatically (D) — Apr. 3 — 9
4 new random-access memories for digital work D. C. Koehler — May 1 — 51
Gages – miniature "thermal history" gage coming up (D) — June 12 — 8
Grinding monitor (D) — May 29 — 9
Gyro – timed blast powers pyro gyro (PD) — Feb. 27 — 46
Home-made instrument measures particle size (N) — Jan. 16 — 10
Japan tries automating its railroads (N) — Jan. 2 — 13
Magnetic memory drum (SP) — Jan. 30 — 55
Measuring acceleration (A) — Apr. 3 — 75
Mesucora Show – European look captures French instrument show Art Erikson (N) — June 19 — 15
Microscope, electron lens, promises higher order of resolution (N) — Feb. 27 — 6
Moisture recorder – Design Award — May 22 — 42
Optical device – swinging prisms have to stay level (PD) — Feb. 27 — 45
Post Office wants mechanization minus gimmicks (W) — Apr. 3 — 12
Robot arm lends hand to production (N) — Mar. 13 — 16
2nd International Measurement Conference scheduled Fred Baer (N) — Mar. 27 — 17
Standards coming for instrument calibration (D) — Apr. 17 — 9
Strain-gage with built-in computer (SP) — Apr. 24 — 85
System measures relative humidity (N) — Apr. 17 — 6
Teaching-aids become more versatile, convertible (N) — Jan. 16 — 15
Transistorized commercial reader will scan by the page (W) — Feb. 13 — 12
Translating – Air Force machine will start translating Russian this fall Dora Merris (N) — May 22 — 15
Transmission of information through the skin (D) — Jan. 2 — 9
Turn back the clock? (Ed) — Jan. 16 — 31
Ultrasonic instrument for measuring (N) — May 29 — 15
Unimate – pushbutton robot learns fast (PD) — Mar. 20 — 72
Water-level indicators for boilers (A) — Feb. 27 — 76
What technological problems need solutions in the communications industry? (PV) — Jan. 9 — 24
X-ray microscope (N) — Jan. 23 — 10

Insulation, electrical
Double electrical insulation (A) — June 19 — 92
Flexible sleeving for electrical insulation (D) — Apr. 17 — 9
How to choose the right electrical insulation A. J. Sherburne — Apr. 10 — 41
New route to flexible electrical insulation (N) — May 1 — 6
New system improves mica insulation (D) — Jan. 30 — 9
Portable tester checks insulation resistance of electrical machinery (T) — Mar. 6 — 25
Resins for electrical components (D) — Feb. 6 — 8
Stator insulation designed by Swiss (D) — June 19 — 9

Insulation, thermal
Flexible insulation heads for ultrahigh temperatures (D) — Feb. 27 — 8
Hi-temp insulation readied for vapor-deposited circuitry (D) — Mar. 13 — 9

Variable-head flowmeters Gerald Bloom ... June 5 50
Voltmeter projects readings movie-style (PD) ... Jan. 30 33

Missiles
Centaur's launch-booster – booster stage undergoes final assembly (N) ... Jan. 23 20
Chromallizing protects missile probes from high-temperature damage (N) ... Feb. 20 17
Dual clutches speed response of missile controls (PD) ... Mar. 6 53
Industry favors A-powered rockets (W) ... Mar. 20 12
Launchers go on aluminum diet (W) ... Mar. 13 12
Mercury-Atlas failure blamed on control device (N) ... May 8 18
Minuteman rocket – case for third-stage (N) ... Mar. 20 16
Missile makers must economize or lose contracts (W) ... Feb. 13 12
Missile planners charged with neglecting commercial aviation's R & D needs Seth Payne (N) ... Jan. 30 17
NASA orders test-firing of 250,000-lb-thrust rocket (W) ... May 1 12
Polaris – Navy presses for intercontinental Polaris (W) ... Mar. 13 12
Polaris to ride surface vessels too (W) ... Feb. 6 12
Polaris with longer range runs into trouble (W) ... Feb. 20 12
Rocket turns nuisance wave into increased thrust Felix Giordano (N) ... June 5 20

Mobile Equipment
Amphibious trucks run gamut of design ideas Felix Giordano (N) ... June 26 15
Automatic paver obeys electrical, hydraulic and pneumatic controls D. R. Davin ... Jan. 23 44
Basic studies of wheels underway (N) ... June 12 6
Compact trencher (T) ... May 29 22
International Agricultural Machinery Show (N) ... Apr. 17 16
Karts shift to 4-cycle engines (D) ... Mar. 6 8
Power assist for wheels of large trailers (N) ... Apr. 17 16
Soviets speed development of air-cushioned amphibious vehicle (N) ... Jan. 23 17
Ten-ton tractor tests hydraulic suspension system (N) ... Mar. 6 16
Torque amplifier for tractor (N) ... Apr. 17 16
Tractor – International Harvester's biggest and smallest (PD) ... Mar. 13 76

Models
Plaster die gives accurate prototypes for diecastings W. G. Newton Jr. ... Apr. 3 54
Wobble-piston engine model works fine, but... Fred Baer (N) ... Apr. 10 21

Molding
Blow molding dominates nation's plastic show Levin & Kolb (T) ... June 26 24
Blow molding goes industrial Samuels & Joslin ... Jan. 16 50
Mold design for plastics (A) ... May 22 75
Mold fabrication (A) ... Mar. 6 77

Motors
Anodizing process is key to higher-temp motors (D) ... May 8 10
Balancing flexible rotors (A) ... Mar. 6 77
British design new two-speed induction motors (D) ... Mar. 27 8
Design Engineering Conference highlights (D) ... June 12 17
Frictionless rotor hits 6,000,000 rpm (PD) ... June 26 48
Fuel-filled motor drives pump (PD) ... May 29 46
Hydraulic gearhead motors (SP) ... Feb. 6 64
Incremental servos (A) ... Jan. 23 78
Japan claims world's fastest electric motor (N) ... Jan. 2 13
Lubrication of instrument motors (A) ... June 5 79
Mirco motors, made of plastic, promised by Soviet engineers (D) ... Jan. 9 8
Non standard ratings for integral-hp motors James Morrison ... June 19 59
Permanent-magnet motor with variable pole (SP) ... Jan. 30 55
Scrubber-cleaner motor stays high and dry (PD) ... Jan. 23 51
Semiconductors reverse variable-speed dc motors Baruch Merman ... Jan. 30 29
Shaft adapters (SP) ... May 29 60
Small motors feature hole-free rotor (D) ... May 15 9
Solid-state reversing drive (SP) ... Feb. 13 61
Static-frequency-changer key to high-power wheel motor Del Yannatta (N) ... Apr. 17 15
Variable-speed motors claim high efficiency (D) ... Jan. 2 8
Which instrument motor for the job? R. W. Matthews ... Mar. 27 43

N

Noise
Damping compounds (D) ... May 29 9
Noise serves as tipoff to mill operation (D) ... Jan. 30 9

Nucleonics
AAAS scientists ponder dangers of nuclear war (N) ... Jan. 16 15
Accelerator costs are on the rise (N) ... Feb. 27 6
Atom-process heat future looks dim (D) ... Apr. 3 9
AEC nuclear powerplant explosion still a mystery (N) ... Jan. 23 20
Industry favors A powered rockets (W) ... Mar. 20 12
Japanese R & D stresses atomic progress (N) ... Feb. 27 17
Plutonium goes commercial (D) ... Jan. 2 8
Radiation aids coating of plastics (D) ... Apr. 24 9
Radioactive isotopes regulation-free in new kit (N) ... Mar. 27 6
Reactor to probe earth's core? (N) ... June 19 6
Reactors plagued by mechanical troubles (D) ... Jan. 23 6
Rover nuclear engine nears production phase (W) ... Feb. 20 12
Selecting materials for radiation environments (N) ... Mar. 27 6
Thermal radiation terms (N) ... Jan. 2 5
These ways measure radiant heat (N) ... Feb. 20 6
Vallecitos shutdown caused by corrosion stress-cracks (N) ... Apr. 3 17

P

Papers
Conductive papers tested for cable wrapping (D) ... Apr. 3 8
Paperboard resists moisture, gas and solvents (D) ... May 1 9

Patents
British firms balk at NASA terms (N) ... May 29 16
Foreign engineers don't argue patent rights ... Jan. 9 72
Government patent policy called sound by independent study (N) ... Mar. 13 15
How can our patent system be improved? (PV) ... May 8 20
Trade-secret disclosure cases (N) ... Mar. 27 15

Photography
Automatic photo-copier gives dry copies fast (D) ... Mar. 6 9

(A)Abstract. (D)Developments. (DF)Design File. (Ed)Editorials. (N)Technical News. (PD)Product Design. (PV)Points of View. (SP)Significant Parts. (T)Trends in Appearance Design. (W)From Washington.

Automatic slide projector – Design Award May 22 37
Camera-developer (T) May 15 25
Digital readout – shutter action translates binary code directly (PD) May 1 56
Gas powers camera drive (PD) Mar. 27 50
High-speed electronic flash has no afterglow (N) Jan. 30 6
Map-display system (D) May 29 9
Miniature photocell (SP) Apr. 17 67
Motion pictures aid in stress evaluations (N) Jan. 23 15
One-shot photocopier rushes duplicates (PD) Apr. 17 57
Pictures measure high temperatures (N) Jan. 16 10
TIROS II's cameras halted by malfunction (N) Feb. 13 18
Voltmeter projects readings movie-style (PD) Jan. 30 33
X-ray microscope (N) Jan. 23 10
X-ray movies show how part works – and fails (N) Mar. 27 17
"World's fastest camera" (N) Mar. 6 6

Piping
Expansion-joint behavior (A) Apr. 10 83
Leaktight seals for high-pressure valves and piping R. W. Engle Apr. 24 72
Liquid densitometer (PD) June 12 66
Which hose for high-peessure systems? John Lozzi Feb. 20 70

Plastics
Abrasion and wear resistance of reinforced polyester surfaces (A) June 19 95
Acrylic coatings and laminates (D) May 29 8
Auto plastic criteria set by engineer (B) May 29 20
Blow molding goes industrial Samuels & Joslin Jan. 16 50
Blow-molding machines and materials Levin & Kolb (T) June 26 24
British develop automatic welder for plastics (D) Feb. 27 8
Catalyst-type spray-head (SP) Feb. 20 90
Celcon – new 'easy-molding' structural plastic Ford Park (N) Mar. 6 17
Cements show promise for threaded joints (D) May 15 9
Charred plastics: new structural family? (D) Feb. 13 9
Coatings and adhesives from petroleum acids (D) Mar. 27 9
Coatings to protect printed circuits (D) Feb. 20 8
Containinants are clue to polyethylene adhesion (N) Mar. 27 6
Damping compounds (D) May 29 9
Delrin's uniform properties answer fatigue problem (N) Feb. 20 20
Elastic properties calculated for laminates (N) Mar. 27 6
Electrical testing of plastics simplified (N) May 1 6
Epoxy-nylon resins show promise for metal-to-metal bonding (D) Feb. 13 9
Ethylene-ethyl acrylate copolymers make debut (D) May 8 10
Exhaust system (N) Jan. 2 13
Fiberglass-reinforced thermoplastics – a closer look W. H. Chadbourne May 15 95
Filament winding – Design Engineering Conference highlight (N) June 12 18
Flame-retardant laminate (SP) June 19 69
Flexible magnets – what you can do with them Annesta R. Gardner Jan. 9 65
Flexible plastic (SP) Jan. 23 66
Fluoroplastic bearings shine in no-lube tests (N) Apr. 24 6
Foams (A) June 26 80
Glass microballoons improve molded plastics (D) Mar. 20 8
Graphitization of plastic parts by pyrolytic conversion (N) Jan. 2 5
Hardness of polymeric materials (A) Mar. 27 85
Hazemeter for plastics tests (N) June 19 6
High-impact gum plastics (SP) Jan. 9 78
How curing agents affect epoxy resins (A) June 26 80
Insulating resins for electrical components (D) Feb. 6 8
Linear polyethylene heads for higher temperatures (D) Jan. 30 9
Machine to perforate plastics and fabrics (D) June 12 8
Machining may cause polymer breakdown (N) Mar. 13 6
Mechanical properties pinpointed by electrical changes (N) Apr. 3 6
Mold design for plastics (A) May 22 75
Molded-in hinge (A) Mar. 20 102
National Plastics Exposition – blow molding dominates Levin & Kolb (T) June 26 24
New materials for electrical and electronic equipment (D) Apr. 24 8
Nylon – more heat resistance (N) May 29 5
Nylon, transparent, ready for work (D) May 22 8
Nylon-type polymer (D) May 15 8
Nylon's dielectric properties changed by temperature (N) Apr. 17 6
Phenolic molding compound (SP) June 12 80
Plastic elastomer challenges rubber (D) Apr. 17 9
Plastics can be cured by sunlight (D) June 5 8
Plastics Institute to emphasize research (W) Feb. 20 12
Polycarbonate parts – design them this way C. V. Leunig May 1 46
Polymers – outlook for hi-temp polymers (N) Jan. 16 10
Polymers to conduct electricity (N) Jan. 30 6
Polypropylene has wide flow-rate range (SP) Mar. 20 82
PVC plasticizer and stabilizer (D) May 22 8
Pre-shaped epoxy adhesives Vincent Sussman May 22 43
Radiation aids coating of plastics (D) Apr. 24 9
Reinforced plastics (A) May 1 76
Reinforced TFE + moly disulfide – for dry bearing surfaces R. C. Barry Mar. 20 76
Soviets design friction tester for plastics (N) Feb. 20 6
Soviets using glass film to reinforce plastics May 1 9
States of polyers (A) Mar. 13 103
Strength of polymers (A) Apr. 10 81
Stress cracking: plastics experts outline causes and cures (N) Jan. 2 5
Tamper-proof closure uses plastic springs (N) Feb. 13 17
Teflon – industry splits over specs needed for high-pressure Teflon (N) Feb. 20 20
"Thermofusion" process (T) June 26 24
Thermosetting polymers (A) Apr. 3 75
Weatherability of linear polyethylene (A) Apr. 24 103
What new plastics would you like to see developed? (PV) June 5 24
Which hose for high-pressure systems? John Lozzi Feb. 20 70

Plating
Ductile palladium coatings promised by new technique (D) Apr. 10 9
Duplex nickel plating emerges a winner in car-corrosion survey (N) Jan. 30 17
Metal plating (SP) Jan. 16 59
Plating aluminum diecastings (A) Feb. 27 76

Pneumatics
Aftercooler for small to medium air systems (SP) Jan. 30 55
Controlled-pressure air column in regulator (SP) Jan. 30 55
Electropneumatic control features solid-state devices (D) May 22 8
Multiple strikers do the job in French descaling tool (D) Apr. 10 8

Powder Metallurgy
Design Engineering Conference discussions (N) June 12 18
Metal-powder parts Felix Giordano Mar. 13 78
Progress reported in powder metallurgy Felix Giordano Jan. 23 16
Sintering in glass bath: cheaper route to powder-metal parts? (D) Jan. 9 8
Two new techniques promise better powder parts (D) Feb. 6 9

Power Sources
Future power sources: Navy likes thermoelectrics and fuel cells (D) Feb. 20 9
Gaseous maser offers new rival to radio waves (N) Feb. 13 18
Solar engines begin to look promising (D) June 19 9
Tomorrow's power sources – report Roy Kamo June 26 51

Presses
Rotojet extruder press (N) May 29 15
2-way press extrudes metal continuously (PD) Jan. 23 50

Printed Circuits
Built-in damping for printed circuits R. P. Thorpe Apr. 3 49
Coatings to protect printed circuits (D) Feb. 20 8
Connector (SP) Apr. 3 63
Molded circuit board (SP) Mar. 27 64
New standards nearing for printed circuit boards (D) Mar. 6 9
Programed clips staked to printed circuit boards (N) Mar. 20 15
Prototype printed circuitry (N) Apr. 10 17
Universal standard for printed wiring boards F. W. Wood Jr. Apr. 3 42

Product Planning
How do you integrate design and production? (PV) Jan. 30 20
Is engineering the sole source for new-product ideas? (PV) May 1 24
Make your product tests user tests – invery... with Morris Kaplan Feb. 6 56

Pumps
Clutch-hydraulic pump (SP) June 19 69
Electromagnetic pump for circulating gases at low flow rates (N) Jan. 2 5
Fuel-filled motor drives pump (PD) May 29 46
Fuel pump hazards explored by NASA (N) May 29 5
Interchangeable pump parts (SP) May 1 66
Maritime Administration calls for better ballast pump (W) Mar. 13 12
Metering pumps (A) May 15 239
Packaged pump bearings assemble faster (PD) Feb. 27 47
Piston pumps (SP) May 15 160
Pump allows no contact (SP) Feb. 27 62
Rubber pump wall is seal and spring too (PD) Jan. 9 60
Submersible pumps (SP) June 5 65

R

Radio and Television
All-transistor TV receiver – Design Award May 22 40
Industrial television camera – Design Award May 22 37
3-D viewing designed for closed-circuit TV William Wallace (N) May 29 20
Two-way citizen's-band radio (T) Mar. 6 25

Recording Equipment
British machine will record in straight lines or curves (D) Jan. 16 8
Geared tapes drive recorder (PD) Apr. 10 63
High Density Recording System (N) Mar. 27 16
Magnetic tapes developed in Western Germany (D) May 22 9
Magnetic tapes record the vibrations of rotating parts Art Erikson (N) June 26 20
Moisture recorder – Design Award May 22 42
Tape recorder – photocell adjusts magnetic clutch (PD) Mar. 6 52

Rectifiers
SCR's vs thyratrons – more Frank Yeaple Mar. 20 78
Which controlled rectifier – SCR or thyratron? Baruch Berman Jan. 2 29

Relays
Dc static timing relay (SP) Feb. 6 64
Effect of contamination on relays (A) May 1 240
Heavy current switching relay (SP) Apr. 3 63
Miniature "true" ac coil relay under test (D) May 15 8
Noninterrupting relay (SP) Jan. 23 66
Photocell relay developed for high-voltage use (D) Jan. 9 8
Relay-contact failures (A) Apr. 24 103
Relay stability (A) May 1 79
Reliability in relays (A) Apr. 17 93

Research
The acceleration of science – crisis in our technological civilization D. J. de Solla Price Mar. 6 56
Air Force centralizes R & D management (W) Apr. 3 12
Aluminum vessel proposed for oceanographic fleet (W) Feb. 27 12
American Association for the Advancement of Science meetings – scientists ponder dangers of nuclear war, engineering shortage (N) Jan. 16 15
Armed Forces wants 123 new inventions (W) Mar. 6 12
AEC pushes R & D of materials (W) May 1 12
Beryllium – research finds surprising ductility (W) Apr. 17 12
Canadians plan science village to speed applied R & D R. M. Baiden (N) June 5 15
Deep diving vessel – all but legal problems solved (W) May 22 10
Defense R & D to thrive under Kennedy budget (W) Apr. 10 12
Detroit growth to be spurred by engineers, government joint efforts (N) June 26 16
Electrolytic analog for transformer research (N) June 26 6
Engineers ask better technical communications (N) May 1 20
Extruded steels need more research (N) Feb. 6 6
Fabric hood permits safer escape from subs (W) June 5 12
Fabrication research (N) Mar. 20 6
Federal R & D spending in fiscal '62 to pass $9.4 million (W) Jan. 30 10
Federal spending for science to pass $8 billion mark (W) Jan. 16 12
French boost nonmilitary R & D spending by 20% (RA) Jan. 2 10
Germans industries neglect applied research (RA) Jan. 2 10
Government enlarging staffs to administer research (W) June 19 12
"Hardness Relaxation" – method of temperature measurement Nick Landon Apr. 17 20
Helium isotope for colder research (N) Mar. 6 6
How much research is needed for engineering in the sixties? (PV) Feb. 27 24
Italy's machine-tool makers aim for an R & D center (N) Mar. 27 21
Japan proudly lists 10 proof of its R & D prowess Sol Sanders (N) Jan. 16 16
Japanese R & D stresses atomic progress (N) Feb. 27 17
Kennedy Administration wants more togethemess in federal R & D (W) Jan. 16 12
Low-temperature hardness charted for hard materials (N) June 19 6
Man-made diamonds get bigger (N) Jan. 16 17
Materials study gives nod to ceramics (W) Mar. 6 12
Mohole project – engineers strike toward a new frontier (N) Feb. 13 13
NSF backs adult science program (N) Apr. 10 20
NSF builds "window to space" on Arizona mountain-top Frank Gancili (N) June 19 21
Navy's antisub research reported lagging (W) Apr. 17 12
Oceanographic program described by Navy (W) June 12 12
OEFC reorganization – R & D spurt expected (N) Jan. 9 21
OEEC seminar calls for documentation center (N) June 26 16
100% pure tungsten is melted and cast Paul Hansen (N) Apr. 17 20
Pinpointing critical temperature (N) Apr. 24 6
Plastics Institute to emphasize research (W) Feb. 20 12
Post Office may cut R & E spending for equipment (W) Feb. 27 12
Promise of new products spurs research growth – what portion of sales are new products? (N) May 8 15
Reactor to probe earth's core? (N) June 19 6

Saturn – hinged tower designed for servicing (W) ... June 19 12
Space Council takes firm control of U.S. programs (N) ... May 15 17
Space programs stir controversy anew (W) ... Feb. 6 12
TIROS II's cameras halted by malfunction (W) ... Feb. 13 18
U.S. seeks satellite orbit-control systems (W) ... Jan. 9 12
U.S. space program slated for overhauling (W) ... Jan. 9 12
Variable vehicle to test Mach -3 recoveries at altitudes to 80,000 ft W.B. Wallace (N) ... Jan. 9 15

Springs
Mechanisms – Spring mechanisms Kurt Hain
1. Force analysis ... Jan. 2 26
2. Point balance ... Jan. 9 62
3. Continuous balancing ... Jan. 16 46
Minimum-weight springs (A) ... Mar. 6 74
New constant-force spring systems Ungar & Pearsons ... Mar. 27 54
Proper preload for cam-follower springs F.H. Fowler Jr. (DF) ... Jan. 9 76
Satellite tape recorder springs save energy (PD) ... Jan. 2 34
Selecting spring materials (A) ... June 19 92
Self-damping spring protects sensitive equipment (D) ... Jan. 2 8
U-springs (A) ... Mar. 13 103

Stamping
Ground rules for designing sheetmetal stampings Federico Strasser (DF) ... Jan. 2 50
Multimetal parts stamped from clad metal strip Brian Coad ... Jan. 9 69

Standardization
Data processors ask ASA to write industry standards (N) ... June 19 16
Double standards? (Ed) ... Jan. 9 51
Drafting standards for aluminum (A) ... June 26 80
Industry splits over specs needed for high-pressure Teflon (N) ... Feb. 20 20
Navy standardizing fuel-filtration tests (D) ... Mar. 27 8
New standards coming for instrument calibration (D) ... Apr. 17 9
New standards nearing for printed circuits boards (D) ... Mar. 6 9
Non standard ratings for integral-hp motors James Morrison ... June 19 59
Universal standard for printed wiring boards F. W. Wood Jr. ... Apr. 3 42

Statistical Control
Edge-coded cards – they analyze experimental data F. E. Satterthwaite ... Jan. 2 44
Safe tolerance for cumulative dimensions E. R. Wolff ... Jan. 2 40

Steel
Adding strength to high-strength steel (N) ... May 22 6
Best heat treatment for PH stainless steel D. C. Ludwigson ... May 8 32
Cold-rolled steels head for ultralow temperatures (N) ... Apr. 3 6
Columbium-treated steel (SP) ... Apr. 3 63
Creep tests reported for manganese steels (N) ... Jan. 30 6
Deep-drawn parts from H-11 steel (N) ... Jan. 16 21
Extruded steels need more work (N) ... Feb. 6 6
Flat-ground steel sizes may be cut (D) ... Feb. 13 8
Flexible metal tapes for high-speed mechanisms C. B. Hebeler ... Feb. 20 65
German chemical process imparts durability to steel items Felix Giordano (N) ... May 1 21
High-strength steels – what they offer – report H. L. Kee ... Jan. 23 54
How to strike an I-beam (N) ... Feb. 27 16
Magnetic test includes stainless steel Maxwell Pevar ... Feb. 6 41
Nickel alloy steel (SP) ... Apr. 10 67
Quicker diagrams analyze steel fatigue M. D. Creech ... Feb. 13 54
Selecting steels for pressurized systems (N) ... May 1 6
Shear spinning (A) ... Mar. 27 86
Shot-peening retards stress-corrosion cracking (N) ... Mar. 6 6
Stainless steel foil (SP) ... Apr. 3 63
Water forces stainless steel into shape (N) ... Jan. 16 16
Zinc-coated steel (SP) ... May 29 60

Stress Analysis
Calculates large deflections in disks R. I. Isakower (DF) ... Apr. 24 81
Columbium sounds off in fracture tests (N) ... June 26 6
Column buckling checks column strength (N) ... Mar. 13 15
Corrosion stress-cracks compel reactor shutdown at Vallecitos (N) ... Apr. 3 17
Creep tests reported for manganese steels (N) ... Jan. 30 6
Dent-resistance data (N) ... Feb. 13 6
18 constant-strength beams nomograph William Griffel (DF) ... May 8 47
Fatigue failures of bearings (A) ... Jan. 16 75
Fatigue poses problems in cable design (D) ... Jan. 23 6
Flexible metal tapes for high-speed mechanisms C.B. Hebeler ... Feb. 20 65
Fracture failures tests (N) ... Mar. 13 6
How to analyze deflection of sleeved shafts T. V. Duggan ... Apr. 17 60
Maximum stress in cylindrical short blocks S. Warren Kaye (DF) ... Jan. 23 63
Mechanisms
Spring mechanisms Kurt Hain 1. Force analysis Jan. 2-26 2. Point balance Jan. 9-62 3. Continuous balancing ... Jan. 16 46
Power cylinder mechanisms Kurt Hain 4. Full stroke Jan. 23-48 5. Intermediate positions ... Jan. 30 36
Motion pictures aid in stress evaluations (N) ... Jan. 23 15
Proper preload for cam-follower springs F. H. Fowler Jr. (DF) ... Jan. 9 76
Quicker diagrams analyze steel fatigue M.D. Creech ... Feb. 13 54
Shot-peening retards stress-corrosion cracking (N) ... Mar. 6 6
Stress cracking: plastics experts outline causes and cures (N) ... Jan. 2 5
Stress when curved surfaces touch R. I. Isakower (DF) ... June 19 65
Test liquids may cause delayed strength loss (N) ... May 22 6
Threshold values for stress corrosion (A) ... Apr. 24 103

Tries new route to truck refrigeration (D) — Jan. 23 5
US Dept. of Agriculture's Forest Products Lab.—Roughness scale to check laminate samples (N) — May 22 20
U.S. Dept. of the Army—Nelson, Maj. Gen. R.T. (PV) — Jan. 9 25
U.S. Dept. of Commerce
Industrial relocation studied (W) — Feb. 27 12
Wants its own technical chief (N) — Mar. 6 20
U.S. Dept. of Commerce Commodity Standards Div.—Flat-ground steel sizes may be cut (D) — Feb. 13 8
U.S. Dept. of Defense—Materials study gives nod to ceramics (W) — Mar. 6 12
US Naval Air Material Center
Columbium sounds off in fracture tests (N) — June 26 6
Retainer reservoirs aid dry-film bearing lubrication (N) — May 8 6
U.S. Naval Operations Office—Future power sources: Navy likes thermoelectrics and fuel cells (D) — Feb. 20 9
US Naval Ordnance Lab
High-speed electronic flash has no afterglow (N) — Jan. 30 6
Liquid lithium may drive subs (D) — Feb. 27 8
Parallel glass fibers increase strength of rocket chambers (W) — Apr. 17 12
Perry, H.A. (PV) — June 5 25
U.S. Naval Research Laboratory
Effect of chamfer on bolt strength is charted (N) — Feb. 6 6
Electrical breakdown in vacuum studied (N) — Feb. 13 6
Fracture failure tests (N) — Mar. 13 6
More data on pressure effects (N) — June 26 6
Portable frequency meter designed (D) — June 26 9
Selecting components for high ambient pressures (N) — Mar. 6 6
Standardizing fuel-filtration tests (D) — Mar. 27 8
Test liquids may cause delayed strength loss (N) — May 22 6
Zinc-columbium coatings do well at 1200 to 1800 F (N) — May 15 6
US Navy
All but legal problems solved for deep diving vessel (W) — May 22 10
Announces radical ship designs (W) — June 12 12
Antisub research reported lagging (W) — Apr. 17 12
Lighter-than-air program is abandoned (W) — Mar. 27 12
Oceanographic program described by Navy (W) — June 12 12
Presses for intercontinental Polaris (W) — Mar. 13 12
Sea launchers for satellites, aircraft studied (W) — May 29 10
To develop subs powered by fuel cells (W) — Apr. 24 12
U.S. Navy's Bureau of Naval Weapons—Helicopter – HU2K-1 (PD) — Jan. 16 44
U.S. Navy Bureau of Ships—Replacing nitrile rubber-cork gaskets (D) — Jan. 30 8
U.S. Post Office Department—R&E spending for equipment may be cut (W) — Feb. 27 12
US Steel—Hybrid steel beam cuts cost of heavy structures (N) — May 22 21
United Steel Companies—Selecting steels for pressurized systems (N) — May 1 6
United Steel Co. Ltd.—Multispecimen machine for creep testing (N) — Jan. 23 16
United Systems Corp.—Four subcontractors team for prime defense business. Mort Reichek (N) — Feb. 6 20
United Technology Corp.—Lab makes $20,000 winder for $3500 (N) — Apr. 3 20
University College (Britain)
Learning machine will simulate brain (N) Nick Landon — Mar. 20 20
New polymers to conduct electricity (N) — Jan. 30 6
University of Alabama Dept. of Pulp and Paper Technology
Sliderule shortcuts for frequently needed data D.S. Davis — Feb. 27 51
Type your logarithmic scales D.S. Davis — Apr. 24 75
University of Birmingham (England)—Solid-state devices promise broader operating range (D) — Feb. 13 8
University of California—Lawrencium (N) — June 5 6
University of Cincinnati—Tachometer has only 3 major parts (D) — June 19 8
University of Delaware—New standards nearing for printed circuit boards (D) — Mar. 6 9
University of Durham, England—Low-cost safety switch (N) — Apr. 3 6
University of Florida—Electron lens promises higher order of resolution (N) — Feb. 27 6
University of Illinois—More-flexible coatings for hi-temp conductors (N) — Feb. 20 6
University of New South Wales (Australia)—Acceleration of low-complexity mechanisms J. Hirschhorn — May 8 26
University of Wisconsin—Solar engines begin to look promising (D) — June 19 9
Vee-Arc Corp.—Ac power-compensating transformer (SP) — Apr. 24 85
Verso Products Co. Inc.—Multiple subplates (SP) — Jan. 9 78
Vickers Inc.—Variable-displacement piston pumps (N) — June 12 22
Vitramon Inc.—Enameled capacitors get high reliability rating (D) — June 12 9
Vitro Laboratories
How to build safety into electronics equipment F.W. Wood Jr. (DF) — Jan. 16 55
6 applications for flat washers N. Dale Long (DF) — Feb. 6 61
Voges Mfg. Co. Inc.—Self-aligning coupling (SP) — Mar. 6 62
Waldes Kohinoor Inc.—Heavy-retaining ring (SP) — Mar. 20 82
Watertown Arsenal Laboratories—"Interlined" coatings tested for high-temperature protection (D) — Apr. 10 9
Watson-Marlow Air Pump Co.—Constant-rate feeder gets new design (D) — Feb. 6 9
Wayne State University—Instrument measures particle size (N) — Jan. 16 10
Weatherhead—Variable-displacement piston pumps (N) — June 12 22
Welding Engineers Inc.—Extruder (T) — June 26 25
Western Mfg. Co.—Heavy-duty transmission (SP) — Apr. 10 67
Westinghouse Atomic Power Dept.—New way to fabricate thermoelectric elements (D) — Jan. 9 9
Westinghouse Electric Corp.
Bismuth titanate sports unusual parts (D) — June 12 9
Dc static timing relay (SP) — Feb. 6 64
Floor polisher P.Q. Yang (T) — Feb. 20 25
Novel indexing service solves technical filing problems R.E. Wendt Jr. — Jan. 16 48
Outer-space uv communications system uses standard cathode-ray tubes (D) — Jan. 16 6
Proper preload for cam-follower springs F.H. Fowler Jr. (DF) — Jan. 9 76
Thermoelectric water cooler (N) — Apr. 17 17
Tomorrow's highway—automatic and up to 150 mph (N) — Jan. 30 18
Westinghouse Electric Co. Electric Appliance Div.—Washer-dryer transmission (PD) — Feb. 6 53
Westinghouse Electric Corp. Materials Laboratories—Fast-response temperature controls — May 29 40
Wheelbrator Corp.—Controlled freezing trims molded rubber (PD) — June 12 65
Whirlpool Corp.—Washer-dryer transmission (PD) — Feb. 6 50
Whitaker, R.G. Ltd.—Two-speed operation provided by new cam clutch (D) — Feb. 13 8
Wilderson Corp.—Compressed-air filter and lubricator (SP) — Mar. 20 82
Williams Research Corp.—Midget turbojet packs power with one-piece cast rotor (N) Don MacDonald — May 15 16
Wolfsburg, V.W. Works—Volkswagen enlarges (N) — Mar. 20 15
Wright Air Development Division's Materials Control—Alloys show promise for difficult temperatures (D) — Apr. 3 9
Wright-Patterson Air Force Base—Solid-film lubricants for extreme environments B. D. McConnell — June 12 70
Yale University—The acceleration of science – crisis is our technological civilization D.J. de Solla Price — Mar. 6 56
Young Radiator Co. Heat Exchanger Div.—Speed design with these calculation forms Jacob Hermann — May 29 54
Zallea Brothers—Gimbal expansion joint (SP) — May 29 60
Zenith Electric Co.—Contactors mechanically held (SP) — June 12 80

AUTHORS' INDEX

ABBOTT, R. E. – Explosive forming causes only slight stresses — June 26 17
ARDEN, Tom – California eyes salt water converters as cost drop — June 5 17
BAER, F. H. – Czech resistance-welding points to economy car engine — Mar. 27 20
East, West to confer on measurements — Mar. 27 17
Model on new engine works fine, but . . . — Apr. 10 21
BAIDEN, R. M. – Canadians plan science village to speed applied R & D — June 5 15
BARRY, R. C. – Reinforced TFE + moly disulfide – for dry bearing surfaces — Mar. 20 76
BEINERT, John David – A designer looks at the Boat Show — Feb. 6 21
BENSON, R. J. – Which instrument-gear materials wear least? — Feb. 27 37
BERMAN, Baruch – SCR or thyratron? — Jan. 2 29
Semiconductors reverse variable-speed dc motors — Jan. 30 29
BERRY, J. T. & T. Watmough – Press-forging for higher strength steel castings — June 12 68
BLOOM, Gerald – Valves for nonlinear flow — Feb. 27 48
Variable-head flowmeters — June 5 50
BLUMENSTEIN, Walter – Design for faster spotwelding — Apr. 24 76
BOND, R. B. & C. H. Yates – These 10 guideposts to low-cost rubber parts — Apr. 10 60
BRATKOWSKI, W. – Fast-response temperature controls — May 29 40
BROSSMAN, Dr. S. W. – Is your drafting room manual readable? — June 5 57
CAPLAN, F. – Design shells for external pressure — May 22 55
CARON, Robert W. – How to file it - efficiently — June 12 74
CERASUOLO, Domenic – What size drive rod between vibrator and test piece? — Mar. 13 82
CHADBOURNE, W. H. – Closer look at fiber-glass-reinforced thermoplastics — May 15 95
CHESHIRE, Herbert – FAA chief stresses need for 2000-mph jet airliner by '68 — Jan. 23 17
CHIRONIS, Nicholas – Mechanical components at Design Engineering Show — June 12 19
New developments in bearing and gear lubrication — May 15 98
Your guide to roller and thrust bearings — Jan. 16 33
CHRISTENSEN, D. A. & V. L. Peickii – How to choose a dynamic seal — Mar. 20 57
CLARKE, A. E. Jr. – Thermoforming + investment process = ultrathin-wall castings — Feb. 27 42
COAD, Brian – Multimetal parts stamped from clad metal strip — Jan. 9 69
CONKLIN, Paul – New African nation self-trains technicians it badly needs — Apr. 24 15
COOK, Gen. Orval R. – Point of view — Mar. 27 25
CREECH, Merl D. – Quicker diagrams analyze steel fatigue — Feb. 13 54
CREECH, M.D. & R.K. Fergin – New mechanism stops spin of rotating mases — Apr. 3 56
CRONQUIST, Donald H. – Simple optical systems — Mar. 13 65
CROSS, Bruce – Chicago's automated mail challenges ingenuity of design engineers — Apr. 3 21
CRUMP, Ralph E. – Area heat sources answer to hot-spot temperature — Jan. 30 42
Keeping the component warm — Mar. 13 61
CURTH, O. E. & Dr. C. C. Miesse – How to select a flowmeter — May 8 35
DAGGETT, Frederick K. – Point of view — Apr. 10 24
DAILEY, Don – Point of view — May 1 24
DAVIN, Donald R. – Automatic paver obeys electrical, hydraulic and pneumatic controls — Jan. 23 44
DAVIS, D. S. – Sliderule shortcuts for frequently needed data — Feb. 27 51
Type your logarithmic scales — Apr. 24 75
DAVISON, S. H. – How to select threaded inserts — May 22 46
de SOLLA PRICE, Derek J. – The acceleration of science – crisis in our technological civilization — Mar. 6 56
Di RAIMONDO, Gene – Italy takes a second look at the computer market — Jan. 9 17
DODGE, H. S. & R. G. Lull – Troubleshooter's approach to failure analysis — June 26 41
DODGE, Louis – How linear are flow-control valves? — Feb. 6 47
DUGGAN, T. V. – How to analyze deflection of sleeved shafts — Apr. 17 60
DUNHAM, Bruce M. – Journal bearing design — Jan. 30 36
DURSTEIN, R. C. – Point of view — June 19 28
ENGLE, R. W. – Leaktight seals for high-pressure valves and piping — Apr. 24 72
ERIKSON, Art – Appearance is secondary, designer tells Paris seminar — May 8 18
The European look captures French instrument show — June 19 15
French designers trying for a "national look" — Apr. 17 24

Magnetic tapes record the vibrations of rotating parts ... June 26 20
Torque amplifier and power assist win agricultural awards ... Apr. 17 16
FERGIN, R. K. & M. D. Creech – New mechanism stops spin of rotating masses ... Apr. 3 56
FORBATH, Pete – Leipzig Fair stresses less bizarre design by Reds ... Apr. 3 15
FOWLER, F. H. Jr. – Proper preload for cam-follower springs ... Jan. 9 76
FRANKEL, Samuel R. – Point of view ... May 8 20
FREUDENSTEIN, Dr. Ferdinand & K. Mohan When linkages need harmonic analysis ... Mar. 6 47
GAGE, Paul E. – What beryllium can do for you ... Feb. 20 82
GARDNER, Annesta R. – How to stop your product from leaking ... June 5 41
What you can do with flexible magnets ... Jan. 9 65
GARRETT, Peter L. – Birth of a project ... Apr. 3 52
GIANCLLI, Frank – NSF builds "window to space" on Arizona mountain-top ... June 19 21
GIORDANO, Felix – Air-lubricated bearings ... May 1 20
Amphibious trucks run gamut of design ideas ... June 26 15
Analyzer writes bearing record ... Mar. 6 15
Auto engineers look mainly to materials for better designs ... Feb. 6 17
Battelle official foresees long-range price stability for most metals ... Apr. 10 20
German chemical process imparts durability to steel items ... May 1 21
Machine straightens, die-quenches mill shapes ... Mar. 13 16
Metal-powder parts ... Mar. 13 78
Progress reported in powder metallurgy ... Jan. 23 16
Rocket turns nuisance wave into increased thrust ... June 5 20
GLASSOW, Frank A. – Point of view ... Jan. 9 24
GLOVER, John H. – New equations simplify pin measurement of gears ... Mar. 13 80
GOERTZ, Albrecht & J. J. Kelleher – Engineer and designer look at the International Auto Show ... Apr. 24 24
GREEN, E. I. – Point of view ... Jan. 9 25
GRIFFEL, William – 18 constant-strength beams ... May 8 47
HAIN, Kurt – Mechanisms
Spring mechanisms 1. Force analysis Jan. 2-26, 2. Point balance Jan. 9-62 3. Continuous balancing ... Jan. 16 46
Power cylinder mechanisms 4. Full stroke Jan. 23-48 5. Intermediate positions ... Jan. 30 36
Mechanisms 9 Feeder mechanisms – curvilinear motions ... Feb. 27 54
HALL, Frank E. – How practical is 400-cycle power - today? ... Mar. 6 54
HANKA, W. – How to set tolerances for selective assembly ... May 1 58
HANSEN, C. A. – Near-standard fasteners ... Jan. 9 75
HANSEN, Paul – 100% pure tungsten is melted and cast ... Apr. 17 20
HATCH, D. K. & E. E. Ungar – High-damping materials - selection guide ... Apr. 17 44
HEBELER, Charles B. – Flexible metal tapes for high-speed mechanisms ... Feb. 20 65
HEINMILLER, Paul R. – Should you make that speech ... May 29 52
HELLER, Cdr. S. R. Jr. – Liquid volume in ellipsoidal tanks ... Mar. 27 62
HERMANN, Jacob – Speed design with these calculation forms ... May 29 54
HICKS, Tyler G. – Cooling hot brakes ... Feb. 13 57
HIRSCHHORN, J. – Acceleration of low-complexity mechanisms ... May 8 26
HOPE, John A. – How to design with precision ball screws ... Apr. 24 59
HUBBARD, Hugh P. – Checklist for planetary-gear sets ... Apr. 3 60
HUFFINS, Vernal & F. W. Wood Jr. – Eight paper-feed mechanisms ... Mar. 6 60
IATESTA, Sal – Speed response of dc clutches and brakes ... Jan. 23 41
ISAKOWER, Robert I. – Calculates large deflections in disks ... Apr. 24 81
Stress when curved surfaces touch ... June 19 65
JORDAN, T. J. – Point of view ... June 5 24
JOSLIN, C. A. & H. Samuels – Blow molding goes industrial ... Jan. 16 50
KAHN, George N. – Point of view ... Apr. 10 24
KAMO, Roy – Tomorrow's power sources ... June 26 51
KASK, Gene – Cellular rubber gives rigid lightweight parts ... June 26 46
KASPER, L. – Attaching hubless gears to shafts ... Jan. 30 51
KAYE, S. Warren – Maximum stress in cylindrical short blocks ... Jan. 23 63
9 common functions of thickness ... Feb. 27 57
KEE, Herbert – Cheapest way to produce metal parts ... Mar. 27 60
High-strength steels – what they offer ... Jan. 23 54
KELLEHER, J. J. & Albrecht Goertz – Engineer and designer look at the International Auto Show ... Apr. 24 24
KELLEHER, J. J. & B. A. Leerburger Jr. – Car interiors must be designed safer now ... Feb. 13 24
KINZEL, Dr. Augustus B. – Point of view ... Jan. 2 16
KLEIN, G. Harold – Natural frequency of non-linear vibration isolators ... Feb. 6 54
KNAB, E. D. – Synchronic index of gear trains ... May 29 35
KOEHLER, Donald C. – 4 new random-access memories for digitel work ... May 1 51
KOLB, John & Monte Levin – Blow molding dominates nation's plastics show ... June 26 24
KOLB, John & Gerald Stahl– Better-organized design helps European machines at Tool Show ... June 12 26
KOPELMAN, Dr. B. – Point of view ... June 19 29
KOSTOCH, F. R. – Point of view ... Mar. 27 24
LAIRD, J. P. – How to start to write a report ... Jan. 23 46
LANDON, Nick – Alloy clue pinpoints car trouble 12,000 mi away ... Apr. 17 20
British learning machine will stimulate brain ... Mar. 20 20
LARSEN, L. R. – When designing with ceramic materials ... May 29 47
LEERBURGER, B. A. & J. J. Kelleher – Car interiors must be designed safer now ... Feb. 13 24
LEUNIG, C. V. – Design polycarbonate parts this way ... May 1 46
LEVIN, Monte & John Kolb – Blow molding dominates nation's plastics show ... June 26 24
LEWIS, R. R. – 7 reliability tests for synthetic-rubber coated fabrics ... Jan. 30 38
LOFTUS, M. W. – Finding the roots of quadratic equations ... June 5 63
LONG, N. Dale – 6 applications for flat washers ... Feb. 6 61
LOVEDAY, G. William – How to put flexible tubing to work ... May 15 101
LOZZI, John – Which hose for high-pressure systems? ... Feb. 20 70
LUDWIGSON, D. C. – Best heat treatment for PH stainless steels ... May 8 32
LULL, R. G. & H. S. Dodge – Trouble-shooter's approach to failure analysis ... June 26 41
LYNCH, Charles J. – Can machines really learn? ... Apr. 3 39
Design ideas from Design Engineering Show ... June 12 24
Improved computer designs shown at conference ... Jan. 9 16
New solid-state memory responds to a light beam ... Feb. 13 16
MacDONALD, Don – Detroit compacts budding for next year's blooming ... Apr. 3 17
Midget turbojet packs power with one-piece cast rotor ... May 15 16
Radio commercials sell auto materials – but not to designers ... June 5 16
MANKO, Howard H. – The right soft solder alloy ... Mar. 6 39
Soldered electrical connection ... June 12 57
MARX, G. & H. Schaedler – Mechanisms
Feeder mechanisms 6. Types Feb. 6-44 7. Applications Feb. 13-52 8. Angular motions ... Feb. 20 80
MATT, Richard J. – How to specify dynamic seals ... Mar. 20 70
MATTHEWS, Robert W. – Which instrument motor for the job? ... Mar. 27 43
McCONNELL, B. D. – Solid-film lubricants for extreme environments ... June 12 70
McKEE, J. E. – Point of view ... Mar. 13 24
MERRIS, Dora – Air Force machine will start translating Russian this fall ... May 22 15
MIESSE, Dr. C. C. & O. E. Curth – How to select a flowmeter ... May 8 35
MOHAN, K. & Dr. Ferdinand Freudenstein – When linkages need harmonic analysis ... Mar. 6 47
MOORE, Dr. Charles H. – Point of view ... June 19 23
MORRISON, James – Detroit compacts – but Volkswagen enlarges ... Mar. 20 15
Non standard ratings for integral-hp motors ... June 19 59
U.S. trade boosted by Commerce Secretary Hodges at Hannover Fair ... May 29 15
MYER, T. R. – Point of view ... June 19 29
NEATHERY, Robert W. – Point of view ... Mar. 13 25
NELSON, Maj. Gen. R. T. – Point of view ... Jan. 9 25
NEWTON, William G. Jr. – Accurate proto-types for diecastings ... Apr. 3 54
NOBLE, Daniel E. – Point of view ... Jan. 9 24
O'MALLEY, James A. Jr. – Point of view ... Mar. 27 24
PARK, Ford – Celcon – new 'easy-molding' structural plastic ... Mar. 6 17
Ceramic cement for 4000 F-plus ... May 29 19
Metals and ceramics at Design Engineering Show ... June 12 22
Moldable urethane rubber for mass production ... Mar. 13 20
PARK, Ford & T. Schafers – Where is Project Mercury? ... May 1 15
PARKER, John R. – Point of view ... Jan. 30 20
PAXTON, Harold W. – Point of view ... Mar. 13 25
PAYNE, Seth – Engineers face return to drawing boards for cure of man-in-space trouble ... Feb. 6 15
Manned shot in March if monkey makes it ... Jan. 30 18
PEARSONS, Karl S. & Eric E. Ungar – New constant-force spring systems ... Mar. 27 54
PEICKII, V. L. & D. A. Christensen – How to choose a dy-amic seal ... Mar. 20 57
PERRY, H. A. – Point of view ... June 5 25
PETERS, Robert L. – Chart finds perimeter of ellipse ... Feb. 6 63
PEVAR, Maxwell – New magnetic test includes stainless steels ... Feb. 6 41
POTTER, F. R. & W. H. Tingle – New in-strument grades polished metal surfaces ... Mar. 27 52
PROCTOR, John – Clutches for mechanical drives ... June 19 43
QUIRK, G. G. Jr. – Predict product performance ... Apr. 24 68
REICHEK, Mort – Congress forewarns of space metal shortages ... Jan. 16 17
Four subcontractors team up for prime defense business ... Feb. 6 20
REINERT, G. – Which shock-absorbing system will do the job? ... May 1 41
REYNOLDS, Frank W. – Point of view ... June 5 24
RICHARDS, Karl M. – Point of view ... Feb. 13 21
RIETZ, George A. – Point of view ... Mar. 13 24
RISK, Thomas H. – Point of view ... June 5 25
ROBERTS, Hon. Kenneth A. – Point of view ... Feb. 13 20
RUDISILL, F. L. – Which decision-making electrical control? ... Feb. 13 37
SAFRANEK, W. H. – Don't overlook electroforming ... June 5 44
SAMUELS, H. & C. A. Joslin – Blow molding goes industrial ... Jan. 16 50
SANDERS, Sol – Japan lists 10 proofs of its R & D prowess ... Jan. 16 16
SATTERTHWAITE, F. E. – Edge-coded cards – they analyze experimental data ... Jan. 2 44
SCHAEDLER, H. & G. Marx – Mechanisms Feeder mechanisms 6. Types Feb. 6-44 7. Applications Feb. 13-52 8. Angular motions ... Feb. 20 80
SCHAFERS, Ted – High grades help fledgling engineers get jobs ... May 22 20
SCHAFERS, T. & Ford Park – Where is Project Mercury? ... May 1 15
SHERBURNE, A. J. – How to choose the right electrical insulation ... Apr. 10 41
SLEGEL, Louis – 1-way output from speed reducers ... Apr. 17 64
SPAULDING, Edward H. – Point of view ... Mar. 27 25
STAHL, Gerald & John Kolb – Better-organized design helps European machines at Tool Show ... June 12 26
STAHLHUTH, P. H. – Hybrid gas bearings for better stability ... Apr. 10 56
STOREY, Richard E. – Resonance-free data from your transducer ... Feb. 20 72
STRASSER, Federico – Flange design – 7 versions ... Mar. 20 80
For better grip . . . longer holes in sheetmetal ... June 12 77
Ground rules for designing sheetmetal stampings ... Jan. 2 50
Stop galvanic corrosion ... Feb. 20 87
SUITS, Dr. Guy – Point of view ... Feb. 27 24
SUSSMAN, Vincent – Pre-shaped epoxy adhesives ... May 22 43
TANGERMAN, E. J. – How to listen . . . and remember 1. June 5-61, 2. June 12-76, 3. Value . . . the emerging emphasis in design ... June 19 64 / May 15 79
TEMPLE, L. D. – How to pick the right mechanical counter ... Apr. 17 41
THORPE, R. P. – Built-in damping for printed circuits ... Apr. 3 49
TINGLE, W. H. & F. R. Potter – New in-strument grades polished metal surfaces ... Mar. 27 52
UNGAR, E. E. & D. K. Hatch – High-damping materials – selection guide ... Apr. 17 44
UNGAR, Eric E. & Karl S. Pearsons – New constant-force spring systems ... Mar. 27 54
WALLACE, William B. – Fluid power compo-nents at Design Engineering Show ... June 12 22
3-D monitor for aircraft ... May 15 20
3-D viewing designed for closed-circuit TV ... May 29 20
Variable vehicle to test Mach-3 recoveries at altitudes to 80,000 ft. ... Jan. 9 15
WARD, R. J. – Satellite paint cuts interior temperatures during orbit ... Feb. 6 15
WATMOUGH, T. & J. T. Berry – Press-forging for higher strength steel castings ... June 12 68
WATSON, J. M. – To move air – equations find the right impeller ... Jan. 9 53
WENDT, R. E. Jr. – Novel indexing device solves technical filing problems ... Jan. 16 48
WOLFF, E. R. – Safe tolerance for cumulative dimensions ... Jan. 2 40
WOOD, Frank William Jr. – Control-locks thwart vibration and shock ... June 26 62
Dimensions for hand grips ... Apr. 10 64
8 stops for panel doors ... May 1 63
How to build safety into electronics equipment ... Jan. 16 55
Snap-in access panels preserve clean look ... May 29 57
Universal standard for printed wiring boards ... Apr. 3 42
WOOD, F. W. Jr. & Vernal Huffines – Eight paper-feed mechanisms ... Mar. 6 60
YAMAGUCHI, John – Japanese chemical formula promises better vacuum casting ... Mar. 6 17
YANG, Peter Quay – Industrial designer finds little new at National Housewares Show ... Feb. 20 24
YANNATTA, Del – Static frequency-changer key to high-power wheel motor ... Apr. 17 15
YATES, C. H. & R. B. Bond – These 10 guideposts to low-cost rubber parts ... Apr. 10 60
YEAPLE, Franklyn D. – Electrical components at Design Engineering Show ... June 12 21
More about SCR's vs thyratrons ... Mar. 20 78
Temperature-measuring transducers ... May 22 49
